The most significant aspect of living in a kampong was its kampong spirit—or gotong royong. Though deprived of modern comforts like electricity or running water, multi-racial neighbours lived harmoniously with each other in their attap villages, had a wonderful zest for life and a strong sense of community. Kampong Spirit brings to life the colourful characters of the villagers with whom the Peranakan author, Josephine Chia, grew up at a kampong in Potong Pasir. The period 1955 to 1965 was also a dramatic era for Singapore. As the country struggled towards nationhood, the social and political events of this time and their effects are seen through the eyes of the common folk. This collection of delightful, real life short stories will take you through Singapore’s history and heritage at a human level. For some, it will be a journey of discovery and for others it will be a time of reminiscing for those nostalgic years.

"Walk in the Light and Twenty-Three Tales" is a collection of religious tales and parables by the famed Russian author Leo Tolstoy, regarded by many as one of the world's greatest authors. In addition to his most well-known novels "War and Peace" and "Anna Karenina," which are regarded as the epitomes of realist fiction, Tolstoy was also a prolific writer of short stories and non-fiction. In the middle of his life, the author underwent a profound religious and spiritual awakening and become a deeply devout Christian. Contained in this collection is the inspirational "Walk in the Light While Ye Have Light", written in 1893. It is the story of Pamphylius, set in the ancient Roman Empire, and his conversion from paganism to Christianity, which is presented as a series of arguments in favor of Tolstoy's faith. Also included are such classics as "God Sees the Truth, but Waits", "The Bear-Hunt", "What Men Live By", "Little Girls Wiser Than Men", and "How Much Land Does a Man Need?", and many more. This representative collection of short stories exhibits why Leo Tolstoy is considered one of the world's most renowned authors. This edition is printed on premium acid-free paper.

Hydrothermal Behavior of Fiber- and Nanomaterial-Reinforced Polymer Composites provides critical information regarding the in-service environmental damage and degradation studies of nano/fiber reinforced polymer (FRP) composites focusing on hydrothermal degradation. Covering hydrothermal properties of a wide range of polymer composites, the book is aimed at graduate students, researchers, and professionals in material engineering, composite materials, nanomaterials, and related fields.

"In his career as an officer of the Indian Police Service, spanning over almost four decades- Gill epitomized honesty, unwavering courage, unbeatable intelligence and uncompromising patriotism. He, thus, became the greatest police officer to have walked this planet."--Back cover.

Prize winning novel in the 1992 Ian St. James Award-winning author in United Kingdom and Ireland.
