From the Preface: This manual, Child Protective Services: A Guide for Caseworkers, examines the roles and responsibilities of child protective services (CPS) workers, who are at the forefront of every community's child protection efforts. The manual describes the basic stages of the CPS process and the steps necessary to accomplish each stage: intake, initial assessment or investigation, family assessment, case planning, service provision, evaluation of family progress, and case closure. Best practices and critical issues in casework practice are underscored throughout. The primary audience for this manual includes CPS caseworkers, supervisors, and administrators. State and local CPS agency trainers may use the manual for preservice or inservice training of CPS caseworkers, while schools of social work may add it to class reading lists to orient students to the field of child protection. In addition, other professionals and concerned community members may consult the manual for a greater understanding of the child protection process. This manual builds on the information presented in A Coordinated Response to Child Abuse and Neglect: The Foundation for Practice. Readers are encouraged to begin with that manual as it addresses important information on which CPS practice is based-including definitions of child maltreatment, risk factors, consequences, and the Federal and State basis for intervention. Some manuals in the series also may be of interest in understanding the roles of other professional groups in responding to child abuse and neglect, including: Substance abuse treatment providers; Domestic violence victim advocates; Educators; Law enforcement personnel. Other manuals address special issues, such as building partnerships and working with the courts on CPS cases.

" A near-miraculous, brilliant debut. " —George Saunders, Man Booker Prize–winning author of Lincoln in the Bardo " In one exquisitely crafted story after the next, Will Mackin maps the surreal psychological terrain of soldiers in a perpetual war. " —Phil Klay, National Book Award–winning author of Redeployment WINNER OF THE PEN/ROBERT W. BINGHAM PRIZE FOR DEBUT SHORT STORY COLLECTION The eleven stories in Bring Out the Dog offer a remarkable portrait of the absurdity and poetry that define life in the most elite, clandestine circles of modern warfare. It is a world of intense bonds, ancient credos, and surprising compassion—of success, failure, and their elusive definitions. Moving between settings at home and abroad, in vivid language that reflects the wonder and discontent of war, Mackin draws the reader into a series of surreal, unsettling, and deeply human episodes. In " Crossing the River No Name, " a close call suggests that miracles do exist, even if they are in brutally short supply; in " Great Circle Route Westward Through Perpetual Night, " the death of the team ' s beloved dog plunges them into a different kind of grief; in " Kattekoppen, " a man struggles to reconcile his commitments as a father and his commitments as a soldier; and in " Baker ' s Strong Point, " a man whose job it is to pull things together struggles with a loss of control. Told without a trace of false bravado and with a keen, Barry Hannah–like sense of the absurd, Bring Out the Dog manages to capture the tragedy and heroism, the degradation and exultation, in the smallest details of war. Praise for Bring Out the Dog " Cuts through all the shiny and hyped-up rhetoric of wartime, and aggressively and masterfully draws a picture of the brutal, frightening, and even boring moments of deployment. . . . The Things They Carried, Redeployment, and now Bring Out the Dog: war stories for your bookshelf that will last a very long time, and serve as reminders of what America was, is, and can still become. " —Chicago Review of Books
