When Markets Peak and Bottom Susan researched six major commodity futures markets-S&P 500, Gold, Soybeans, Crude Oil, Euro FX and U.S. 10-year T-notes- and their connection to astrological transits, the ever-changing position of planets in the sky. To her delight, she found that each market showed tendencies to make important price highs and price lows when certain planets made certain connections to the horoscope chart cast for when each market began trading. This breakthrough research in the commodity markets required having the exact first-trade time

media commentators have led individual investors to believe that daily news, quarterly earnings reports and corporate events drive stock prices. Nothing could be further from the truth. The reality is - there is an overwhelming connection between the ever-changing configurations of orbiting planets and other celestial bodies in our cosmos and the financial markets. Is this connection firmly based in science? Or, are powerful money managers in financial centers around the globe moving prices of equities and commodity futures in accordance with astrological aspects and patterns? Whatever the case may be, investors and traders alike ought to be aware of the connection between astrology and the

markets. The connection between astrology and the markets is not new. In the early years of the 20th century successful traders like W.D. Gann, J.P. Morgan and the mysterious Louise McWhirter recognized this connection. They repeatedly used their knowledge of astrology to profitably trade the markets at key astrological occurrences. This 2020 Almanac provides the reader with key astrological dates to watch for each month. These dates align to astrological occurrences that have been shown time and again to have a high propensity to result in price trend changes on stocks, market indices and commodity futures. These key dates have been determined using the same analytical process that Gann and

McWhirter would have used. This Almanac then goes deeper to present the reader with critical Quantum Price Lines for various market indices and commodity futures for 2020. Alternative measures of time are then discussed including the Gann Master Cycle (which starts anew in 2020), the Weston Model, the Shmitah Year, Price square Time, and Kabbalah sacred angles. It is the author's sincere hope that after applying the material presented in this Almanac, readers will begin to enjoy an increased level of success with their trading and investing activity.
