Vibrations Due To ...

As AISC Design Guide 11, Floor Vibrations Due to Human Activity (AISC, 1997) points out, objectionable vibrations have been observed in the second floor levels of these types of structures. Objectionable floor vibrations can result from a lack of damping in open pedestrian areas and walkways. This is discussed in detail in Design Guide 11.

Serviceability Design Considerations

The guide includes historical reviews of AISC Specifications and Manuals, as well as the RCSC Specification and ASTM standards. The
