Law is a word that means different things at different times. Black ' s Law Dictionary says that law is “ a body of rules of action or conduct prescribed by controlling authority, and having binding legal force. That which must be obeyed and followed by citizens subject to sanctions or legal consequence is a law. ”

‘ Introduction to Law ’ and is deliberately based on the framework used for first-year law students at the University of Zimbabwe. There are those who deserve special mention for making the publication of this book a success. I would like to register my indebtedness to the Friedrich-Ebert-Stiftung for funding the publication of this book. The ges-

An introduction to Zimbabwean law

Law is a system of rules created and enforced through social or governmental institutions to regulate behavior, with its precise definition a matter of longstanding debate. It has been variously described as a science and the art of justice. State-enforced laws can be made by a group legislature or by a single legislator, resulting in statutes; by the executive through decrees and regulations ...

Law - Wikipedia

New York challenged the constitutionality of this law. The state acknowledged that the federal government could regulate the interstate waste market. However, New York maintained that Congress could not force the state to take ownership of private radioactive waste. The Supreme Court agreed. Justice O ' Connor wrote the majority opinion.

Introduction to law 1. By: Shwetanshu Gupta (49) To : Prof. Rajendra Mishra Tanvi Bhargav (53) 2. What is law? Laws are essentially a set of rules, but there are 3 main characteristics that make laws different from simple rules: Laws are a set of rules established and enforced by government. Laws are mandatory. Laws involve consequences. Law is the system of control (i.e. a set of rules ...

Since the publication of its first edition, this textbook has become the definitive student introduction to the subject. As with earlier editions, the seventh edition gives a clear understanding of fundamental legal concepts and their importance within society. In addition, this book addresses the ways in which rules and the structures of law respond to and impact upon changes in economic and political life. The title has been extensively updated and explores recent high profile developments such as the Civil Partnership Act 2005 and the Racial and Religious Hatred Bill. This introductory text covers a wide range of topics in a clear, sensible fashion giving full context to each. For this reason An Introduction to Law is ideal for all students of law, be they undergraduate law students, those studying law as part of a mixed degree, or students on social sciences courses which offer law options.

Now in its Third Edition, An Introduction to Law and Legal Reasoning continues to be the ideal go-to for the first year law student. It is a short, practical book that introduces beginning law students and

Introduction To Law Series

others to contemporary law and legal reasoning. By presenting these topics through various discussions of cases and examples, it provides students with a solid source to reference for years to come. A dependable, practical source, that: Covers analogical and deductive reasoning, as well as the roles of legal conventions, purposes, and policies in legal reasoning Discusses cases of varying difficulty to diversify the learning process Presents law and legal reasoning primarily through discussions of cases and examples that avoid the abstraction characteristic of most competing books Emphasizes the law as used in practice by lawyers and judges Provides an explicit and systematic introduction to law and legal reasoning Offers a source suitable for use as supplementary reading in any first year course, in legal research and writing courses, in paralegal courses, and in other settings This great new edition has been carefully updated to include: A new chapter, "Hardest Cases," that highlights cases notorious in the press Updates throughout that guarantee the most current legal information

Distinguished by brevity, lucid writing, and well-chosen examples, An Introduction to Law and Economics, now in its Fifth Edition, focuses on a set of core topics that include property, contracts, torts, criminal law, and litigation. Avoiding specialized jargon and mathematics, Polinsky teaches students how to think like an economist and understand legal issues from an economic perspective. New to the Fifth Edition: A streamlining of the products liability chapter A revised discussion of the redistributive effects of legal rules to reflect more recent scholarship on this topic The addition of several other refinements in the text and in new footnotes An updated bibliography Professors and students will benefit from: Solid coverage of relevant economic principles A normative approach that illustrates how to assess legal rules and policies in terms of economic and social goals Clear explanations of concepts

In recent years, regulation has emerged as one of the most distinct and important fields of study in the social sciences, both for policy-makers and for scholars who require a theoretical framework that can be applied to any social sector. This timely textbook provides a conceptual map of the field and an accessible and critical introduction to the subject. Morgan and Yeung set out a diverse and stimulating selection of materials and give them context with a comprehensive and critical commentary. By adopting an interdisciplinary approach and emphasising the role of law in its broader social and political context, it will be an invaluable tool for the student coming to regulation for the first time. This clearly structured, academically rigorous title, with a contextualised perspective, is essential reading for all students of the subject.

In this newly updated volume, Moliterno and Lederer take a fresh and innovative look at the subject of law and what law study and the practice of law entail by combining a traditional academic viewpoint with elements of law practice and ethics as it continues to be widely used in orientation and introductory courses. The American legal system can be hard to understand. Going to law school is both difficult and anxiety-producing. Introduction to Law is designed to help in both areas. Written by two highly-experienced legal educators at America's oldest law school, Introduction to Law provides the reader with a written equivalent of William & Mary Law School's famous introductory law school week. Often light-hearted, this useful and pragmatic book combines an innovative introduction to the American legal system with material on how to read and understand court cases and, critically, the lawyer's interaction with the client. All too often, legal texts ignore people, especially the client whose need for legal advice first engages the legal system. The text shows the reader how a lawyer must ascertain facts and goals from a client and then apply what the new lawyer (or law student) has learned about law and its interpretation to solve the client's problem. Revised in 2010 to be fresher, more readable, and more timely in its current events references, Introduction to Law is an ideal book for a soon-to-be law student or for anyone who wants a better understanding of how our legal system and lawyers function.

This book is exceptional in the sense that it provides an introduction to law in general rather than the law of one specific jurisdiction, and it presents a unique way of looking at legal education. It is crucial for

Online Library An Introduction To Law And Legal Reasoning

Introduction To Law Series

lawyers to be aware of the different ways in which societal problems can be solved and to be able to discuss the advantages and disadvantages of different legal solutions. In this respect, being a lawyer involves being able to reason like a lawyer, even more than having detailed knowledge of particular sets of rules. Introduction to Law reflects this view by focusing on the functions of rules and on ways of arguing the relative qualities of alternative legal solutions. Where 'positive' law is discussed, the emphasis is on the legal questions that must be addressed by a field of law and on the different solutions which have been adopted by, for instance, the common law and civil law tradition. The law of specific jurisdictions is discussed to illustrate possible answers to questions such as when the existence of a valid contract is assumed.

Law and Society is a rapidly-growing interdisciplinary field that turns on its head the conventional, idealized view of the "Law" as a magisterial abstraction. Kitty Calavita's Invitation to Law and Society brilliantly brings to life the ways in which law shapes and manifests itself in the institutions and interactions of human society, while inviting the reader into conversations that introduce the field's dominant themes and most lively disagreements. Deftly interweaving scholarship with familiar personal examples, Calavita shows how scholars in the discipline are collectively engaged in a subversive exposé of law's public mythology. While surveying prominent issues and distinctive approaches to the use of the law in everyday life, as well as its potential as a tool for social change, this volume provides a view of law that is more real but just as compelling as its mythic counterpart. In a field of inquiry that has long lacked a sophisticated yet accessible introduction to its ways of thinking, Invitation to Law and Society will serve as an engaging and indispensable guide.

A comprehensive, stimulating introduction to trusts law, which provides readers with a clear conceptual framework to aid understanding of this challenging area of the law. Aimed at readers studying trusts at an undergraduate level, it provides a succinct and enlightening account of this area of the law. Concise and clear, this book also identifies and discusses many analytical perspectives, encouraging a deeper understanding of the issues at hand. It offers an outstanding treatment of specific areas, in particular remedial constructive trusts and trusts of family homes. Ideal for providing a broad background to the issues before embarking on an in-depth study of trusts, it can also be used to help the reader to develop their understanding. For those looking to challenge themselves, detailed footnotes highlight further issues and point the direction for future reading. Fully revised to take into account the Charities Act 2006, judicial developments through case law, and recent academic work in this area, this new edition in the renowned Clarendon Law Series offers a well-written, careful, and insightful introduction to the law of trusts.

Pound, Roscoe. An Introduction to the Philosophy of Law. New Haven: Yale University Press, 1922. 307 pp. Reprinted 2003 by The Lawbook Exchange, Ltd. LCCN 2002044351. ISBN 1-58477-327-8. Cloth. \$70. * Pound's Introduction outlines the philosophical foundations that support Anglo-American common law. A written version of the Storrs Lectures delivered at Yale University during the academic year 1921-1922. "Dean Pound has given us a clear, concise introduction to the philosophy of the law. It is so concise that it is impossible to summarize it so as to give any idea of its wealth of learning....An excellent, impartial and concise presentation of the subject..." William Herbert Page, Harvard Law Review 36:115-117 cited in Marke, A Catalogue of the Law Collection at New York University (1953) 922.
