Synopsis. "All first-rate criticism first defines what we are confronting," the late, great jazz critic Whitney Balliett once wrote. By that measure, the essays of Christopher Hitchens are in the first tier. For nearly four decades, Hitchens has been telling us, in pitch-perfect prose, what we confront when we grapple with first principles—the principles of reason and tolerance and skepticism that define and inform the foundations of our civilization-principles that, to endure, must be ...

"All first-rate criticism first defines what we are confronting," the late, great jazz critic Whitney Balliett once wrote. By that measure, the essays of Christopher Hitchens are in the first tier. For nearly four decades, Hitchens has been telling us, in pitch-perfect prose, what we confront when we grapple with first principles—the principles of reason and tolerance and skepticism that define and inform the foundations of our civilization-principles that, to endure, must be defended anew by every generation. "A short list of the greatest living conversationalists in English," said The Economist, "would probably have to include Christopher Hitchens, Sir Patrick Leigh-Fermor, and Sir Tom Stoppard. Great brilliance, fantastic powers of recall, and quick wit are clearly valuable in sustaining conversation at these cosmic levels. Charm may be helpful, too." Hitchens—who staunchly declines all offers of knighthood—hereby invites you to take a seat at a democratic conversation, to be engaged, and to be reasoned with. His knowledge is formidable, an encyclopedic treasure, and yet one has the feeling, reading him, of hearing a person thinking out loud, following the inexorable logic of his thought, wherever it might lead, unafraid to expose fraudulence, denounce injustice, and excoriate hypocrisy. Legions of readers, admirers and detractors alike, have learned to read Hitchens with something approaching awe at his felicity of language, the oxygen in every sentence, the enviable wit and his readiness, even eagerness, to fight a foe or mount the ramparts. Here, he supplies fresh perceptions of such figures as varied as Charles Dickens, Karl Marx, Rebecca West, George Orwell, J.G. Ballard, and Philip Larkin are matched in brilliance by his pungent discussions and intrepid observations, gathered from a lifetime of traveling and reporting from such destinations as Iran, China, and Pakistan. Hitchens's directness, elegance, lightly carried erudition, critical and psychological insight, humor, and sympathy-applied as they are here to a dazzling variety of subjects—all set a standard for the essayist that has rarely been matched in our time. What emerges from this indispensable volume is an intellectual self-portrait of a writer with an exemplary steadiness of purpose and a love affair with the delights and seductions of the English language, a man anchored in a profound and humane vision of the human longing for reason and justice.

A collection of essays on a wide range of political and cultural issues in America from past to present.

On June 8, 2010, while on a book tour for his bestselling memoir, Hitch-22, Christopher Hitchens was stricken in his New York hotel room with excruciating pain in his chest and thorax. As he would later write in the first of a series of award-winning columns for Vanity Fair, he suddenly found himself being deported "from the country of the well across the stark frontier that marks off the land of malady." Over the next eighteen months, until his death in Houston on December 15, 2011, he wrote constantly and brilliantly on politics and culture, astonishing readers with his capacity for superior work even in extremis. Throughout the course of his ordeal battling esophageal cancer, Hitchens adamantly and bravely refused the solace of religion, preferring to confront death with both eyes open. In this riveting account of his affliction, Hitchens poignantly describes the torments of illness, discusses its taboos, and explores how disease transforms experience and changes our relationship to the world around us. By turns personal and philosophical, Hitchens embraces the full panoply of human emotions as cancer invades his body and compels him to grapple with the enigma of death. MORTALITY is the exemplary story of one man's refusal to cower in the face of the unknown, as well as a searching look at the human predicament. Crisp and vivid, veined throughout with penetrating intelligence, Hitchens's testament is a courageous and lucid work of literature, an affirmation of the dignity and worth of man.

"Hitchens presents a George Orwell fit for the twenty-first century." --Boston Globe In this widely acclaimed biographical essay, the masterful polemicist Christopher Hitchens assesses the life, the achievements, and the myth of the great political writer and participant George Orwell. True to his contrarian style, Hitchens is both admiring and aggressive, sympathetic yet critical, taking true measure of his subject as hero and problem. Answering both the detractors and the false claimants, Hitchens tears down the façade of sainthood erected by the hagiographers and rebuts the critics point by point. He examines Orwell and his perspectives on fascism, empire, feminism, and Englishness, as well as his outlook on America, a country and culture toward which he exhibited much ambivalence. Whether thinking about empires or dictators, race or class, nationalism or popular culture, Orwell's moral outlook remains indispensable in a world that has undergone vast changes in the seven decades since his death. Combining the best of Hitchens' polemical punch and intellectual elegance in a tightly woven and subtle argument, this book addresses not only why Orwell matters today, but how he will continue to matter in a future, uncertain world.

"This collection of essays brings together some of the finest pieces Hitchens published over the last two decades for the first time in one book, addressing with characteristic wit and erudition the subjects he is best known for, including: the case against God, faith and religious observance; the case for intervention in Iraq; indictments of towering political figures like Bill and Hillary Clinton, Tony Blair, and Henry Kissinger; and celebrations of the writers and thinkers whose work meant most to him"--

"I did not, I wish to state, become a journalist because there was no other 'profession' that would have me. I became a journalist because I did not want to rely on newspapers for information." Love, Poverty and War: Journeys and Essays showcases America's leading polemicist's rejection of consensus and cliché, whether he's reporting from abroad in Indonesia, Kurdistan, Iraq, North Korea, or Cuba, or when his pen is targeted mercilessly at the likes of William Clinton, Mother Theresa ("a fanatic, a fundamentalist and a fraud"), the Dalai Lama, Noam Chomsky, Mel Gibson and Michael Bloomberg. Hitchens began the nineties as a "darling of the left" but has become more of an "unaffiliated radical" whose targets include those on the "left," who he accuses of "fudging" the issue of military intervention in the Balkans, Afghanistan and Iraq. Yet, as Hitchens shows in his reportage, cultural and literary criticism, and opinion essays from the last decade, he has not jumped ship and joined the right but is faithful to the internationalist, contrarian and democratic ideals that have always informed his work.

"Art of Mentoring" seriesIn the book that he was born to write, provocateur and best-selling author Christopher Hitchens inspires future generations of radicals, gadflies, mavericks, rebels, angry young (wo)men, and dissidents. Who better to speak to that person who finds him or herself in a contrarian position than Hitchens, who has made a career of disagreeing in profound and entertaining ways. This book explores the entire range of "contrary positions"—from noble dissident to gratuitous pain in the butt. In an age of overly polite debate bending over backward to reach a happy consensus within an increasingly centrist political dialogue, Hitchens pointedly pitches himself in contrast. He bemoans the loss of the skills of dialectical thinking evident in contemporary society. He understands the importance of disagreement-to personal integrity, to informed discussion, to true progress-heck, to democracy itself. Epigrammatic, spunky, witty, in your face, timeless and timely, this book is everything you would expect from a mentoring contrarian.

Christopher Hitchens—political journalist, cultural critic, public intellectual and self-described contrarian—is one of the most controversial and prolific writers of his generation. His most recent book, God Is Not Great, was on the New York Times bestseller list in 2007 for months. Like his hero, George Orwell, Hitchens is a tireless opponent of all forms of cruelty, ideological dogma, religious superstition and intellectual obfuscation. Once a socialist, he now refers to himself as an unaffiliated radical. As a thinker, Hitchens is perhaps best viewed as post-ideological, in that his intellectual sources and solidarities are strikingly various (he is an admirer of both Leon Trotsky and Kingsley Amis) and cannot be located easily at any one point on the ideological spectrum. Since leaving Britain for the United States in 1981, Hitchens's thinking has moved in what some see as contradictory directions, but he remains an unapologetic and passionate defender of the Enlightenment values of secularism, democracy, free expression, and scientific inquiry. The global turmoil of the recent past has provoked intense dispute and division among intellectuals, academics, and other commentators. Hitchens's writing during this time, particularly after 9/11, is an essential reference point for understanding the genesis and meaning of that turmoil—and the challenges that accompany it. This volume brings together Hitchens's most incisive reflections on the war on terror, the war in Iraq, and the state of the contemporary Left. It also includes a selection of critical commentaries on his work from his former leftist comrades, a set of exchanges between Hitchens and various left-leaning interlocutors (such as Studs Terkel, Norman Finkelstein, and Michael Kazin), and an introductory essay by the editors on the nature and significance of Hitchens's contribution to the world of ideas and public debate. In response, Hitchens provides an original afterword, written for this collection. Whatever readers might think about Hitchens, he remains an intellectual force to be reckoned with. And there is no better place to encounter his current thinking than in this provocative volume.

'For the sake of argument, one must never let a euphemism or a false consolation pass uncontested. The truth seldom lies, but when it does lie it lies somewhere in between.' The global turmoil of the last few years has severely tested every analyst and commentator. Few have written with such insight as Christopher Hitchens about the large events - or with such discernment and with about the small tell-tale signs of a disordered culture. For the Sake of Argument ranges from the political squalor of Washington, as a beleaguered Bush administration seeks desperately to stave off disaster and Clinton prepares for power, to the twilight of Stalinism in Prague; from the Jewish quarter of Damascus in the aftermath of the Gulf War to the embattled barrios of Central America and the imperishable resistance of Saralevo, as a difficult peace is negotiated with ruthless foes. Hitchens' unsparing account of Western realpolitik in the end shows it to rest on delusion as well as deception. The reader will find in these pages outstanding essays on political assassination in America as well as a scathing review of the evisceration of politics by pollsters and spin-doctors. Hitchens' knowledge of the tortuous history of revolutions in the twentieth century helps him to explain both the New York intelligentsia's flirtation with Trotskyism and the frailty of Communist power structures in Eastern Europe. Hitchens' pointed reassessments of Graham Greene, P.G. Wodehouse and C.L.R. James, or his riotous celebration of drinkiny and smoking, display an engaging enthusiasm and an acerbic wit. Equally entertaining is his unsparing rogues' gallery, which gives us unforgettable portraits of the lugubrious Dr'Kissinger, the comprehensively reactionary 'Mother' Teresa, the preposterous Paul Johnson and the predictable P.J. O'Rourke.
