Bing: Ati Testing Pain Management Answers The NCLEX-RN Test Plan is organized into four major Client Needs categories. Two of the four categories are divided into subcategories as shown below: Safe and Effective Care Environment. Management of Care - 17% to 23%; Safety and Infection Control - 9% to 15%; Health Promotion and Maintenance - 6% to 12%;

Ati Testing Pain Management Answers Slibforyou

Pain assessment begins with asking the patient if he has pain. If the answer is yes, perform a thorough pain assessment, including the intensity, quality, location, timing (onset, duration, frequency), symptoms, treatments (prescription and nonprescription), effects on function/daily activities, and what has and has not worked in the past. Merely asking the patient to rate his pain is not enough.

Pain Management - ATI Testing

B. Ask the nurse educator to give an in-service about pain management. C. Perform a complete pain assessment and history on the client. D. Have a conference with the nurses responsible for the care of this client. 2. Family members are encouraging your client to “ tough it out ” rather than run the risk of becoming addicted to narcotics. The ...
