Basic writings of existentialism : Marino, Gordon Daniel ...

Existentialism is a philosophy that emphasizes individual existence, freedom and choice. It is the view that humans define their own meaning

in life, and try to make rational decisions despite existing in an irrational universe. It focuses on the question of human existence, and the

feeling that there is no purpose or explanation at the core of existence. . It holds that, as there is no God or ...

The Seven Best Books on Existentialism - The Daily Idea

Existentialism does not deny the validity of the basic categories of physics, biology, psychology, and the other sciences (categories such as

matter, causality, force, function, organism, development, motivation, and so on). It claims only that human beings cannot be fully understood

in terms of them.

Existentialism (Stanford Encyclopedia of Philosophy)

You can always and continually choose your attitude towards life. * In existentialism, the individual's starting point is characterized by what

has been called "the existential attitude", or a sense of disorientation and confusion in the face of...
