From the creator of the beloved and universally acclaimed television series BoJack Horseman, a fabulously off-beat collection of short stories about love—the best and worst thing in the universe. “Complex, daring, emotional, and unique, with notes of melancholic brilliance and an aftertaste of subtle elation: it is hard to describe the writing of Raphael Bob-Waksberg without sounding like Frasier discussing wine.” —B. J. Novak, author of One More Thing Written with all the scathing dark humor that is a hallmark of BoJack Horseman, Raphael Bob-Waksberg’s stories will make you laugh, weep, and shiver in uncomfortably delicious recognition. In “A Most Blessed and Auspicious Occasion,” a young couple engaged to be married is forced to deal with interfering relatives dictating the appropriate number of ritual goat sacrifices for their wedding. “Missed Connection—m4w” is the tragicomic tale of a pair of lonely commuters eternally failing to make that longed-for contact. And in “More of the You That You Already Are,” a struggling employee at a theme park of dead presidents finds that love can’t be genetically modified. Equally at home with the surreal and the painfully relatable (and both at once), Bob-Waksberg delivers a killer combination of humor, romance, whimsy, cultural commentary, and crushing emotional vulnerability.

Discusses how to live with difficult persons.

When Sara Olsher was diagnosed with cancer at the age of 34, her first thought was how to tell her six-year-old daughter without scaring her. As it turned out, explaining cancer was only the beginning. Treatment is long and causes a lot of ongoing changes in the family - all of which can be confusing, scary, and isolating for kids. Join Stinkerpants and her stuffed giraffe Stuart as they explain the science of cancer and how a loved one's diagnosis and treatment affects a kid's day-to-day life. What Happens When Someone I Love Has Cancer? uses bright and fun illustrations to show how cells can turn into cancer and helps reduce confusion about how cancer treatment affects a person and the kids in their lives. "Most of the time we do the same things in the mornings. We wake up. We eat breakfast. (I like apples. Stuart only eats bugs.) . . . When something big changes, what we do each day can change too. Stuart wants to know what happens to our days when someone we love has cancer." Aimed at families with kids ages 4 to 10, Stinkerpants + Stuart books are based on decades of solid science about how kids learn and cope with the major day-to-day changes that result from issues like cancer. Using a visual calendar, Stinkerpants + Stuart books reduce anxiety by showing kids what to expect. What Happens When Someone I Love Has Cancer? is the perfect book for families that want to explain what cancer actually is and how it affects a kid's life, and applies to mothers, fathers, grandparents, and many types of cancer, including breast cancer, colon cancer, blood cancers such as leukemia, and bone cancers. It aims to empower kids with knowledge, which is proven to help kids through traumatic situations.

. . . I wanted you more than you'll ever know, so I sent love to follow wherever you go. . . . Love is the greatest gift we have to give our children. It's the one thing they can carry with them each and every day. If love could take shape it might look something like these heartfelt words and images from the inimitable Nancy Tillman. Wherever You Are is a book to share with your loved ones, no matter how near or far, young or old, they are.
