Black Like Me, which is written in the form of John Howard Griffin's diary, is not a novel, but it is not a real diary, either. The book chronicles Griffin's real experiences—in 1959, he really underwent skin therapy to transform himself into a black man temporarily—but he did not keep a diary as he was going through them.

The Deep South of the late 1950's was another country: a land of lynchings, segregated lunch counters, whites-only restrooms, and a color line etched in blood across Louisiana, Mississippi, Alabama, and Georgia. White journalist John Howard Griffin, working for the black-owned magazine *Sepia*, decided to cross that line. Using medication that darkened his skin to deep brown, he exchanged his privileged life as a southern white man for the disenfranchised world of an unemployed black man. What happened to John Howard Griffin--from the outside and within himself--as he made his way through the segregated Deep South is recorded in this searing work of nonfiction. Educated and soft-spoken, John Howard Griffin changed only the color of his skin. It was enough to make him hated ... enough to nearly get him killed. His audacious, still chillingly

Introduction by Richard Klein.

The companion volume to the 50th-anniversary edition of *Black Like Me*, this book features John Howard Griffin's later writings on racism and spirituality. Conveying a progressive evolution in thinking, it further explores Griffin's ethical stand in the human rights struggle and nonviolent pursuit of equality—a view he shared with greats such as Gandhi, Martin Luther King Jr., and Thomas Merton. Enlightening and forthright, this record also focuses on Griffin's spiritual grounding in the Catholic monastic

First published by Orbis Books in 1997, *Man in the Mirror* tells the story behind *Black Like Me*, a book that astonished America upon its publication in 1961, and remains an American classic 50 years later. In 1959 a white writer darkened his skin and passed for a time as a "Negro" in the Deep South. John Howard Griffin was that writer, and his book *Black Like Me* swiftly became a national sensation. Few readers know of the extraordinary journey that led to Griffin's risky "experiment"—the culmination of a lifetime of risk, struggle, and achievement. A native of Texas, Griffin was a medical student who became involved in the rescue of Jews in occupied

France; a U.S. serviceman among tribal peoples in the South Pacific, where he suffered an injury that left him blinded for a decade; a convert to Catholicism; and, finally, a novelist and writer. All these experiences fed Griffin's drive to understand what it means to be human, and how human beings can justify treating their fellows—of whatever race or physical description—as "the intrinsic Other." After describing this journey and analyzing the text of *Black Like Me*, Robert Bonazzi treats the dramatic aftermath of Griffin's experiment and life. *Man in the Mirror* provides a fascinating look at the roots of this important book, and offers reflections on why, after all these years, it retains its impact and relevance.

some of the emotional truths from her own experiences growing up with an adoptive white family. I am a girl but most days I feel like a question mark. Makeda June Kirkland is eleven years old, adopted, and black. Her parents and big sister are white, and even though she loves her family very much, Makeda often feels left out. When Makeda's family moves from Maryland to New Mexico, she leaves behind her best friend, Lena—the only other adopted black girl she knows—for a new life. In New Mexico, everything is different. At home, Makeda's sister is too cool to hang out with her anymore and at school, she can't seem to find one real friend. Through it all, Makeda can't help but wonder: What would it feel like to grow up with a family that looks like me? Through singing, dreaming, and writing secret messages back and forth with Lena, Makeda might just carve a small place for herself in the

Flipping John Howard Griffin's classic *Black Like Me*, and extending Noel Ignatiev's *How The Irish Became White* into the present-day, Wise explores the meanings and consequences of whiteness, and discusses the ways in which racial privilege can harm not just people of color, but also whites. Using stories instead of stale statistics, Wise weaves a narrative that is at once readable and yet scholarly; analytical and yet accessible.

hood. It is the joy of acceptance and the pain of rejection finally told from the opposite perspective of black Americans being denied assimilation into white society. It is the "OC" inside out, blended with Spike Lee's *Jungle Fever* upside down, and a kinder, warmer Eminem's *8-Mile*. It is a story whose time has finally come. Its chemistry is exquisitely perfect. It presents situations that evoke only empathy, and characters that everyone will relate to and ultimately embrace. *Black-Like-Me* is the realization of American life and its true promise of human manifest destiny. Read this and swell up inside. Hey, you are about to fall in love!

When a black family moves to an all-white neighborhood, prejudice rears its ugly head as the white adults behave rudely and children's friendships break up.
