Budgie Care

Bird baths: keeping your budgie clean and healthy Putting a bird bath in your budgies' aviary/ cage will help them keep their feathers in top condition. This is really important for birds that live indoors because the heating systems in our homes can dry out the air. Budgies love to splash around in their bath.

Budgie Care Sheet - HugglePets

Keeping Your Budgie Happy. Other sections of this guide go into more detail, but these are the basic requirements for happy birds: A suitably sized, well designed and regularly cleaned cage in a warm room (or an aviary with an enclosed area for roosting) A well-balanced and varied diet; Fresh, clean water for drinking and bathing

Budgie Keeping | Budgies | Guide | Omlet UK

Budgies love treats like millet spray and treat bells, however, you must only feed as an occasional treat. Cover your bird's cage at night with a light cover to prevent "night fright". This will also discourage your bird from chirping loudly with the sunrise. CAGE CARE Follow these simple rules to ensure the best possible care for your budgie:

Budgie care guide - Petbarn

Budgie healthcare is all about prevention. They are prone to contracting parasites, like worms or lice, and can have respiratory issues and digestive problems. However, if they are individual pets, then there are fewer chances for them to get worms or lice. Respiratory diseases can be avoided by feeding them right and keeping them in a clean area.
