We suggest that, before using your oven for the first time, you leave it empty and set it at maximum temperature for 45 minutes. Make sure that the environment in which the product is installed is well ventilated. □ Take care when opening the oven door during or after cooking. The hot steam from the oven may cause burns.

Position the induction plate at the third level and plug it in. Place the cooking vessel on the induction plate and fill it in with 200g of water. Select the Top Finishing function and run the oven for approximately one hour to eliminate the smell and fumes from the insulating materials and protective grease.

Some ovens are equipped with a pyrolysis function. This is a cleaning system that burns dirt and fat in the oven by using very high temperatures. After pyrolysis, all the dirt will have turned to ash and can be easily removed. If the oven has a pyrolysis function, it is advisable to use it 3 to 4 times a year to keep the oven clean.
