In this book, designed to increase mental health professionals' global literacy, authors from 33 countries demonstrate multicultural skills and competencies through case studies that illustrate approaches to counseling and psychotherapy in their countries. Following an introductory section on the use of case studies, chapters focus on a cross section of countries in Africa; Australia and Asia; Central, North, and South America; Europe; and the Middle East. Each case describes the client and his or her presenting concerns and includes a culture-sensitive assessment and treatment plan, an analysis and critical reflection of the case, and questions for discussion. The final chapter of the text presents a comparative analysis of the cases. *Requests for digital versions from the ACA can be found on wiley.com. *To request print copies, please visit the ACA website here. *Reproduction requests for material from books published by ACA should be directed to permissions@ counseling.org.

Includes highly effective creative and expressive interventions This state-of-the-art collection of 30 real-life cases on counseling children and adolescents emphasizes the developmental, relational, and cultural contexts of working with this population, and incorporates innovative techniques across a wide range of approaches. Intended as a companion to child and adolescent counseling texts, it offers counselors-in-training examples of hands-on, concrete, and workable applications that provide opportunities for skill and theory development. These case studies are distinguished by their emphasis on the critical impact of such systematic contexts as family, peers, and school, along with developmental and cultural contexts. The inclusion of creative and expressive interventions—often the most effective strategies in working with this population—make this an outstanding educational resource. The case studies—representing an esteemed variety of contributing authors-- address such ubiquitous themes as abuse, anxiety, giftedness, disability, body image, substance abuse, social media, grief, bullying, changing families, military families, incarcerated family members, race and ethnicity, and sexual identity and orientation. Each case follows a consistent format, comprised of a description of the young person's presenting issues, a conceptualization of these issues, a description of the counseling process, an outline of desired outcomes, and a detailed discussion that includes systemic contexts, developmental and relational considerations, multicultural perspectives, and options for use of creative interventions. Key Features: Delivers a wide variety of cases covering contemporary issues prevalent among children and adolescents Emphasizes developmental, systematic, and contextual impacts including family, school, peer, and cultural influences Includes such treatment approaches as brief, solution-focused, CBT, reality/choice, narrative, and relational/cultural Includes options for creative interventions with each case and time efficient methods when applicable.

Counselors and other mental health professionals are increasingly encountering clients who differ from them in terms of race, culture, and ethnicity. Unfortunately many have not been trained to understand how powerfully culture affects our view of the world. The series on Multicultural Foundations of Counseling and Psychology is an invaluable new resource from Teachers College Press that focuses on multicultural issues in counseling and psychology. The books in this series chart the development of this evolving new field and will help educators, psychologists, counselors, social workers, and other mental health professionals learn to balance culture-universal and culture specific approaches to treat a diverse population. This volume uses fascinating therapeutic encounters to help clinicians understand and respond to the needs of their increasingly diverse clientele. Murphy-Shigematsu urges clinicians to look beyond their assumptions and stereotypes to learn their clients' cultures through eliciting key narratives. Keeping the client and therapist center stage, the author shows the complex ways in which their cultural self-narratives interact.

The availability of practical applications, techniques, and case studies by international therapists is limited despite expansions to the fields of clinical psychology and counseling. As dialogues surrounding mental health grow in the East, it is important to maintain therapeutic modalities that ensure the highest level of patient-centered rehabilitation and care are met across global networks. Multicultural Counseling Applications for Improved Mental Healthcare Services is an essential reference source that discusses techniques in addressing different religions and cultures in counseling and therapy. The research in this publication provides a platform and a voice for Eastern therapists to contribute to the body of knowledge and build a more robust therapeutic framework for practitioners worldwide. Featuring topics such as psychotherapy, refugee counseling, and women empowerment, this book is ideally designed for mental health professionals, counselors, therapists, clinical psychologists, sociologists, social workers, researchers, students, and social science academicians seeking coverage on significant advances in therapy, as well as the skills, challenges, and abilities that practitioners facing diverse populations must manage on a daily basis.

Multicultural Counseling and Psychotherapy, 6th ed, offers counseling students and professionals a distinctive lifespan approach that emphasizes the importance of social justice and diversity in mental health practice. Chapters include case studies, reflection questions, and examinations of current issues in the field. Each chapter also discusses the ways in which a broad range of factors—including sexuality, race, gender identity, and socioeconomic conditions—affect clients' mental health, and gives students the information they need to best serve clients from diverse backgrounds.

Using compelling contemporary and classic cases, CASE STUDIES IN PSYCHOTHERAPY brings to life essential concepts and practices in psychotherapy. The Seventh Edition of this popular casebook features intriguing new cases added to illustrate Psychoanalysis, Client-Centered Therapy, Existential Therapy, Interpersonal Therapy, Contemplative Therapies, and Therapy in a Multicultural context. There's also an entirely new chapter on Positive Psychotherapy. The book maintains its parallel structure with the Tenth Edition of Wedding and Corsini's CURRENT PSYCHOTHERAPIES, providing you with the most comprehensive look at psychotherapy available today. All of these insightful cases are chosen for intrinsic interest, clarity of presentation, and the ability to most effectively demonstrate the basic techniques and methods of the theory being illustrated.
