Life Science: Chicken Wing Dissection. This video shows how to dissect a chicken wing. Students use this video as a tutorial in order to dissect their own chicken wings during the Life Science Grade 4 module. The purpose of the dissection is to help students understand how different structures (like muscles, nerves, and bones) work together to allow the chicken to move (aligned with NGSS 4-LS1-1).

Chicken Wing Dissection we pulled on one of the muscles with a tweezer the wing started to extend then, we let go of the muscle and the wing closed back to the original shape

~~Science Chicken Wing Dissection by tiffany mak~~
Chicken wing dissection Students should have one chicken wing each, a board, scalpel, tweezers and dissecting scissors. The teacher might also provide slides and cover slips in case pupils want to make up slides of the tissues to look at under the microscope. The students dissect the chicken wing and investigate the tendons, muscles and joints, with a diagram to refer to.
