Journalist Walls grew up with parents whose ideals and stubborn nonconformity were their curse and their salvation. Rex and Rose Mary and their four children lived like nomads, moving among Southwest desert towns, camping in the mountains. Rex was a charismatic, brilliant man who, when sober, captured his children's imagination, teaching them how to embrace life fearlessly. Rose Mary painted and wrote and couldn't stand the responsibility of providing for her family. When the money ran out, the Walls retreated to the dismal West Virginia mining town Rex had tried to escape. As the dysfunction escalated, the children had to fend for themselves, supporting one another as they found the resources and will to leave home. Yet Walls describes her parents with deep affection in this tale of unconditional love in a family that, despite its profound flaws, gave her the fiery determination to carve out a successful life. -- From publisher description.

“Will the tiger be menacing; will the ocean be threatening; will the island be something out of Frankenstein or will it be an Eden?”—Yann Martel *Life of Pi*, first published in 2002, became an international bestseller and remains one of the most extraordinary and popular works of contemporary fiction. In 2005 an international competition was held to find the perfect artist to illustrate Yann Martel's Man Booker Prize-winning novel. From thousands of entrants, Croatian artist Tomislav Torjanac was chosen. This lavishly produced edition features forty of Torjanac's beautiful four-color illustrations, bringing *Life of Pi* to splendid, eye-popping life. Tomislav Torjanac says of his illustrations: “My vision of the illustrated edition of *Life of Pi* is based on paintings from a first person's perspective—Pi's perspective. The interpretation of what Pi sees is intermeshed with what he feels and it is shown through [the] use of colors, perspective, symbols, hand gestures, etc.”

Now a Netflix film starring and directed by Chiwetel Ejiofor, this is a gripping memoir of survival and perseverance about the heroic young inventor who brought electricity to his Malawian village. When a terrible drought struck William Kamkwamba's tiny village in Malawi, his family lost all of the season's crops, leaving them with nothing to eat and nothing to sell. William began to explore science books in his village library, looking for a solution. There, he came up with the idea that would change his family's life forever: he could build a windmill. Made out of scrap metal and old bicycle parts, William's windmill brought electricity to his home and helped his family pump the water they needed to farm the land. Retold for a younger audience, this exciting memoir shows how, even in a desperate situation, one boy's brilliant idea can light up the world. Complete with photographs, illustrations, and an epilogue that will bring readers up to date on William's story, this is the perfect edition to read and share with the whole family.
