Culture and Imperialism : Edward W Said : 9780099967507

Culture and Imperialism describes how the language used in literature can powerfully impact our stereotypes of other cultures. Using examples in classical literature (ranging from Jane Austen, to Joseph Conrad, to Albert Camus), Said shows us how imperialism was reinforced by the written word.

A landmark work from the author of Orientalism that explores the long-overlooked connections between the Western imperial endeavor and the culture that both reflected and reinforced it. In the nineteenth and early twentieth centuries, as the Western powers built empires that stretched from Australia to the West Indies, Western artists created masterpieces ranging from Mansfield Park to Heart of Darkness and Aida. Yet most cultural critics continue to see these phenomena as separate. Edward Said looks at these works alongside those of such writers as W. B. Yeats, Chinua Achebe, and Salman Rushdie to show how subject peoples produced their own vigorous cultures of opposition and resistance. Vast in scope and stunning in its erudition, Culture and Imperialism reopens the dialogue between literature and the life of its time.

Following his profoundly influential study, *Orientalism*, Edward Said now examines western culture. From Jane Austen to Salman Rushdie, from Yeats to media coverage of the Gulf War, *Culture and Imperialism* is a broad, fierce and wonderfully readable account of the roots of imperialism in European culture.

Investigates the relationship between culture and the imperialism of the West through an examination of the concept of empire-building in Western literature

More than three decades after its first publication, Edward Said's groundbreaking critique of the West's historical, cultural, and political perceptions of the East has become a modern classic. In this wide-ranging, intellectually vigorous study, Said traces the origins of "orientalism" to the centuries-long period during which Europe dominated the Middle and Near East and, from its position of power, defined "the orient" simply as "other than" the occident. This entrenched view continues to dominate western ideas and, because it does not allow the East to represent itself, prevents true understanding. Essential, and still eye-opening, *Orientalism* remains one of the most important books written about our divided world.

From one of the most important intellectuals of our time comes an extraordinary story of exile and a celebration of an irrecoverable past. A fatal medical diagnosis in 1991 convinced Edward Said that he should leave a record of where he was born and spent his childhood, and so with this memoir he rediscovers the lost Arab world of his early years in Palestine, Lebanon, and Egypt. Said writes with great passion and wit about his family and his friends from his birthplace in Jerusalem, schools in Cairo, and summers in the mountains above Beirut, to boarding school and college in the United States, revealing an unimaginable world of rich, colorful characters and exotic eastern landscapes. Underscoring all is the confusion of identity the young Said experienced as he came to terms with the dissonance of being an American citizen, a Christian and a Palestinian, and, ultimately, an outsider. Richly detailed, moving, often profound, *Out of Place* depicts a young man's coming of age and the genesis of a great modern thinker.

"... brilliantly original ... brings cultural and post-colonial theory to bear on a wide range of authors with great skill and sensitivity." Terry Eagleton

No single book has encompassed the vast scope of Edward Said's erudition quite like *Power, Politics and Culture* - a collection of his interviews from the last three decades. In these twenty-nine interviews, Said addresses everything from Palestine to Pavarotti, from his nomadic upbringing under colonial rule to his politically active and often controversial life in America, and reflects on Austen, Beckett, Conrad, Naipaul, Mahfouz and Rushdie as well as fellow critics Bloom, Derrida and Foucault. Said speaks here with his usual candour, acuity and eloquence - confirming that he was in his lifetime among the truly most important intellects of our century.

In works such as *Culture and Imperialism*, Said has compelled us to question our culture's most privileged myths. Now with this impassioned and incisive book, our foremost Palestinian-American intellectual challenges the official version of the Middle East "peace process." "He challenges and stimulates our thinking in every area."-- Washington Post Book World.

In this classic work, now updated, the author of *Culture and Imperialism* reveals the hidden agendas and distortions of fact that underlie even the most "objective" coverage of the Islamic world. From the Iranian hostage crisis through the Gulf War and the bombing of the World Trade Center, the American news media have portrayed "Islam" as a monolithic entity, synonymous with terrorism and religious hysteria. At the same time, Islamic countries use "Islam" to justify unrepresentative and often repressive regimes. Combining political commentary with literary criticism, *Covering Islam* continues Edward Said's lifelong investigation of the ways in which language not only describes but also defines political reality.

In these six essays--delivered on the BBC as the prestigious Reith Lectures--Edward Said addresses the ways in which the intellectual can best serve society in the light of a heavily compromised media and of special interest groups who are protected at the cost of larger community concerns. Said suggests a recasting of the intellectual's vision to resist the lures of power, money, and specialization. In these pieces, Said eloquently illustrates his arguments by drawing on such writers as Antonio Gramsci, Jean-Paul Sartre, Regis Debray, Julien Benda, and Theodore Adorno, and by discussing current events and celebrated figures in the world of science and politics: Robert Oppenheimer, Henry Kissinger, Dan Quayle, Vietnam and the Gulf War. Said sees the modern intellectual as an editor, journalist, academic, or political adviser--in other words, a highly specialized professional--who has moved from a position of independence to an alliance with powerful corporate, institutional, or governmental organizations. He concludes that it is the exile-immigrant, the expatriate, and the amateur who must uphold the traditional role of the intellectual as the voice of integrity and courage, able to speak out against those in power.
