The Wood Design Manual has a similar scope to the "Concrete Design Handbook" and the "Handbook for Steel Construction", providing practitioners with essential information for the design of structural wood components following a Part 4 engineered design approach.

Technical Publications (Paid) - The Canadian Wood Council

The Wood Design Manual has a similar scope to the "Concrete Design Handbook" and the "Handbook for Steel Construction", providing practitioners with essential information for the design of structural wood components following a Part 4 engineered design approach.

Wood Design Manual 2017 – Canadian Wood Council Webstore

The purpose of this sixth edition of the Wood Design Manual is to help the Canadian design community – architects, engineers, specification writers, teachers and students of these disciplines – to design wood structures with efficiency, economy and safety. It brings together, in a comprehensive but

CWC Wood Design

of wood structural elements and systems. This is the first edition of the Wood Design Manual to provide guidance on the design of cross-laminated timber. The CWC would like to thank the individuals who were instrumental in the original development of this manual: Stephen J. Boyd, Quaile

Engineering Ltd., and Gary C. Williams, Timber Systems Ltd. Michael Giroux President December 2017

Wood - CWC

The Wood Design Manual is the essential wood design publication. The 2015 edition (published 2016) is updated in compliance with National Building Code of Canada 2015 and CSA Standard 086-2014. The major updates include the mechanics based approach for determining the shear resistance of shearwalls and diaphragms along with the selection tables that were developed based on this methodology.

2015 Wood Design Manual is now available! - CWC

Wood Design Manual Canadian Wood Council *For information on CWC's other design tools, visit the CWC web site at www.cwc.ca The information in the Wood Design Manual is based on the latest information available from the National Building Code of Canada (2015) and from CSA Standard 086-14 (Update 2) Engineering Design in Wood. ...
