Accountants have historically had an important role in the detection and deterrence of fraud. As Joe Wells ' Principles of Fraud Examination 4th edition illustrates, fraud is much more than numbers; books and records don ' t commit fraud – people do. Widely embraced by fraud examination instructors across the country, Principles of Fraud Examination, 4th Edition, by Joseph Wells, is written to provide a broad understanding of fraud to today ' s accounting students – what it is and how it is committed, prevented, detected, and resolved. This 4th edition of the text includes a chapter on frauds perpetrated against organizations by individuals outside their staff—a growing threat for many entities as commerce increasingly crosses technological and geographical borders.

This volume contains the first twenty chapters (the financial accounting chapters) from Accounting Principles, Third Editioni by the same authors. As in the full book this version has been designed to make the accounting experience interesting and meaningful. Each chapter opens with real-life scenarios that illustrate how accounting relates to students' lives. Provides insight into business, ethics and international problems as well as challenges accountants face and accounting's role in dealing with these issues. Technology in Action boxes demonstrate how computers continue to revolutionize accounting, how they are used in today's accounting practice as well as an idea of what the future holds. Features scores of demonstration problems, self-study questions and exercises.

Awakening: An Introduction to the History of Eastern Thought engages students with anecdotes, primary and secondary sources, an accessible writing style, and a clear historical approach. The text focuses on India, China, and Japan, while showing the relationships that exist between Eastern and Western traditions. Patrick Bresnan consistently links the past to the present, so students may see that Eastern traditions, however ancient their origins, are living traditions and relevant to modern times.
