Dust is the third book in the Silo series, and nicely brings the storyline to a natural conclusion, but also leaves the door cracked open for any followups that may be written. There are many fan-fiction stories set in this world, and I'm sure there are many who will continue to write in this universe, but the main story is finally concluded.

Silo is a series of post-apocalyptic science fiction books by American writer Hugh Howey. The series started in 2011 with the short story "Wool", which was later published together with four sequel novellas as a novel with the same name. Along with Wool, the series consists of Shift, Dust, three short stories and Wool: The Graphic Novel.

Wool introduced the world of the silo. Shift told the story of its creation. Dust will describe its downfall. Juliette, now mayor of Silo 18, doesn't trust Silo 1, especially its leader, Donald. But in the world of the Silos, there is no black and white — everything is shades of gray. Donald may not be the monster Juliette thinks he is, and may in fact be key to humanity's continued survival. But can they work together long enough to succeed?

Wool introduced the world of the silo. Shift told the story of its creation. Dust will describe its downfall.

In 2007, the Center for Automation in Nanobiotech (CAN) outlined the hardware and software platforms that would one day allow robots smaller than human cells to make medical diagnoses, conduct repairs, and even self-propagate. In the same year, the CBS network re-aired a program about the effects of propranolol on sufferers of extreme trauma. A simple pill, it had been discovered, could wipe out the memory of any traumatic event. At almost the same moment in humanity's broad history, mankind discovered the means for bringing about its utter downfall. And the ability to forget it ever happened. This is the second volume in the New York Times best-selling Wool series.

For the first time ever, The Silo Saga Omnibus brings together all of the work in Hugh Howey's ground-breaking, best-selling, acclaimed series, including the individual novels Wool, Shift, and Dust, as well as original essays by the author, and a bonus chapbook of short fiction, Silo Stories. The remnants of humanity live underground in a vast silo. In this subterranean world, rules matter. Rules keep people alive. And no rule is more strictly enforced than to never speak of going outside. The punishment is exile and death. When the sheriff of the silo commits the ultimate sin, the most unlikely of heroes takes his place. Juliette, a mechanic from the down deep, who never met a machine she couldn't fix nor a rule she wouldn't break. What happens when a world built on rules is handed over to someone who sees no need for them? And what happens when a world broken to its core comes up against someone who won't stop until things are set to right? Their world is about to fall. What — and who — will rise?

'The next Hunger Games' The Sunday Times ' Well written, tense, and immensely satisfying, Wool will be considered a classic for many years in the future. ' WIRED 'Thrilling, thought-provoking and memorable ... one of dystopian fiction's masterpieces alongside the likes of 1984 and Brave New World.' Daily Express 'Howey's Wool is an epic feat of imagination. You will live in this world.' Justin Cronin 'Wool is frightening, fascinating, and addictive. In one word, terrific.' Kathy Reichs In a ruined and hostile landscape, in a future few have been unlucky enough to survive, a community exists in a giant underground silo. Inside, men and women live an enclosed life full of rules and regulations, of secrets and lies. To live, you must follow the rules. But some don't. These are the dangerous ones; these are the people who dare to hope and dream, and who infect others with their optimism. Their punishment is simple and deadly. They are allowed outside. Jules is one of these people. She may well be the last.

The first book in the acclaimed, New York Times best-selling trilogy, Wool is the story of a community living in an underground silo completely unaware of the fate of the outside world. When the silo's sheriff asks to leave the silo, a series of events unravels the very fabric of their fragile lives. In a world where all commodities are precious and running out, truth and hope may be the most rare...and the most needed.

The much-anticipated final instalment of the Wool trilogy. 'The next Hunger Games' The Sunday Times 'Thrilling, thought-provoking and memorable ... one of dystopian fiction's masterpieces alongside the likes of 1984 and Brave New World.' Daily Express In the aftermath of the uprising, the people of Silo 18 are coming to terms with a new order. Some embrace the change, others fear the unknown; none have control of their fate. The Silo is still in danger. There are those set on its destruction. Jules knows they must be stopped. The battle has been won. The war is just beginning.

The old world is buried. A new one has been forged atop the shifting dunes. Here in this land of howling wind and infernal sand, four siblings find themselves scattered and lost. Their father was a sand diver, one of the elite few who could travel deep beneath the desert floor and bring up the relics and scraps that keep their people alive. But their father is gone. And the world he left behind might be next. Welcome to the world of Sand, a novel by New York Times best-selling author Hugh Howey. Sand is an exploration of lawlessness, the tale of a land ignored. Here is a people left to fend for themselves. Adjust your ker and take a last, deep breath before you enter.

The much anticipated prequel to bestseller Wool that takes us back to the beginnings of the silo. The full novel which brings together First, Second and Third Shift. 'The next Hunger Games' The Sunday Times 'An epic feat of imagination. You will live in this world.' Justin Cronin In a future less than fifty years away, the world is still as we know it. Time continues to tick by. The truth is that it is ticking away. A powerful few know what lies ahead. They are preparing for it. They are trying to protect us. They are setting us on a path from which we can never return. A path that will lead to destruction; a path that will take us below ground. The history of the silo is about to be written. Our future is about to begin.

One of TIME 's 100 Best Fantasy Books of All Time Winner of the L.A. Times Ray Bradbury Prize Finalist for the 2019 National Book Award The New York Times Bestseller Named a Best Book of 2019 by The Wall Street Journal, TIME, NPR, GQ, Vogue, and The Washington Post "A fantasy world as well-realized as anything Tolkien made." --Neil Gaiman "Gripping, action-packed....The literary equivalent of a Marvel Comics universe." --Michiko Kakutani, The New York Times The epic novel, an African Game of Thrones, from the Man Booker Prize-winning author of A Brief History of Seven Killings In the stunning first novel in Marlon James's Dark Star trilogy, myth, fantasy, and history come together to explore what happens when a mercenary is hired to find a missing child. Tracker is known far and wide for his skills as a hunter: "He has a nose," people say. Engaged to track down a mysterious boy who disappeared three years earlier, Tracker breaks his own rule of always working alone when he finds himself part of a group that comes together to search for the boy. The band is a hodgepodge, full of unusual characters with secrets of their own, including a shape-shifting man-animal known as Leopard. As Tracker follows the boy's scent--from one ancient city to another; into dense forests and across deep rivers--he and the band are set upon by creatures intent on destroying them. As he struggles to survive, Tracker starts to wonder: Who, really, is this boy? Why has he been missing for so long? Why do so many people want to keep Tracker from finding him? And perhaps the most important questions of all: Who is telling the truth, and who is lying? Drawing from African history and mythology and his own rich imagination, Marlon James has written a novel unlike anything that's come before it: a saga of breathtaking adventure that's also an ambitious, involving read. Defying categorization and full of unforgettable characters, Black Leopard, Red Wolf is both surprising and profound as it explores the fundamentals of truth, the limits of power, and our need to understand them both.
