bookmakers for more than £10 million in an eight-year period. This book offers a brutal, often controversial, but utterly fascinating insight into Patrick Veitch's life of punting. Told in Veitch's own candid ice-cool style, with an intelligent wit throughout, this is quite simply a compelling read.

Enemy Number One tells the story of the Soviet cultural and propaganda apparatus and its efforts to control information about the United States in the postwar landscape. Beginning with the 1945 meeting of American and Soviet troops on the Elbe, this period saw cultural relations develop in close connection to oppression as the Soviet authorities attempted to contain and appropriate images of the United States. Rósa Magnúsdóttir analyzes two official narratives about the

USSR's "enemy number one" --Stalin's anti-American campaign and Khrushchev's policy of peaceful coexistence--and shows how each relied on the legacy of the wartime alliance in their approach. Stalin used the wartime experience to spread fear of a renewed war, while Khrushchev used the wartime alliance as proof that the two superpowers could work together. Drawing from extensive archival resources, Magnúsdóttir brings to life the propaganda warriors and ideological chiefs of the early Cold War period in the Soviet Union, revealing their confusion and insecurities as they attempted to navigate the uncertain world of late Stalin and early Khrushchev cultural bureaucracy. She also demonstrates how concerned Soviet authorities were by their people's presumed interest in the United States, resorting to

"The cumulative effect is overwhelming. Eleanor Roosevelt was right: Hoover's FBI was an American gestapo."

—Newsweek Shocking, grim, frightening, Curt Gentry's masterful portrait of America's top policeman is a unique political biography. From more than 300 interviews and over 100,000 pages of previously classified documents, Gentry reveals exactly how a paranoid director created the fraudulent myth of an invincible, incorruptible FBI. For almost fifty years, Hoover held virtually unchecked public power, manipulating every president from Franklin D. Roosevelt to Richard Nixon. He kept extensive blackmail files and used illegal wiretaps and hidden microphones to destroy anyone who opposed

The book reveals how Hoover helped create McCarthyism, blackmailed the Kennedy brothers, and influenced the Supreme Court; how he retarded the civil rights movement and forged connections with mobsters; as well as insight into the Watergate scandal and what part he played in the investigations of President John F. Kennedy and Martin Luther King Jr.
