While going to work on a kibbutz in Israel, a young man is determined to find out the truth about the role his grandfather played as a Nazi officer in World War II, yet an unexpected event puts his plans on hold as he and a diverse group of people are forced to deal with a modern day catastrophe of their very own.

How can theories of language development be understood and applied in your language classroom?By presenting a range of linguistic perspectives from formal to functional to cognitive, this book highlights the relevance of second language acquisition research to the language classroom. Following a

brief historical survey of the ways in which language has been viewed, Whong clearly discusses the basic tenets of Chomskyan linguistics, before exploring ten generalisations about second language development in terms of their implications for language teaching. Emphasising the formal generative approach, the book explores well-known language teaching methods, looking at the extent to which linguistic theory is relevant to the different approaches. This is the first textbook to provide an explicit discussion of language teaching from the point of view of formal linguistics.

Islam tolerates aggressive force when it "pleases Allah", or is necessary for religious purposes, as punishment for "Keffirs" (infidels). That was what the felling of the WTC and one wing of the Pentagon meant. That opinion was the central result of indoctrination, from six years of age and up. For Islam self-immolation for Allah's sake is paradise. 'Understanding Terror' brings all the steps towards the elimination of the Western Civilization, as we know it in 2002. That included the musical pop musical culture, Hollywood, Television as a means of entertainment, the Olympics Games, Womens' Lib and and later on the conversion of all religions into Islam. This book is a strong indictment against a large section of the world population, that is convinced of their unwillingness to live side by side with other civilizations, Islam is not only abhorring Judaism, it is abhorring Christianity, Buddhism, Hinduism, etc, etc, etc.

Winner, Arab American National Museum Book Award for Children's/YA Literature, among other awards and honors. "When a war ends it does not go away," my mother says. "It hides inside us . . . Just forget!" But I do not want to do what Mother says . . . I want to remember. In this groundbreaking memoir set in Ramallah during the aftermath of the 1967 Six-Day War, Ibtisam Barakat captures what it is like to be a child whose world is shattered by war. With candor and courage, she stitches together memories of her childhood: fear and confusion as bombs explode near her home and she is separated from her family; the harshness of life as a Palestinian refugee; her unexpected joy when she discovers Alef, the first letter of the Arabic alphabet. This is the beginning of her passionate connection to words, and as language becomes her refuge, allowing her to piece together the fragments of her world, it becomes her true home. Transcending the particulars of politics, this illuminating and timely book provides a telling glimpse into a little-known culture that has become an increasingly important part of the puzzle of world peace.
