The Trauma Nursing Core Course (TNCC) can be a very daunting class to take as a new nurse. I was pretty much terrified when I was told I had to not only take the class but was only going to get a few weeks to study for it. They handed me this massive textbook and I was told to read the whole thing before class. I was completely overwhelmed.

Review Guides/Certification Prep/Pocket Guides

Design of Shallow and Deep Foundations introduces the concept of limit state calculations, before focusing on shallow and deep foundations. The limit state combinations of actions are examined, and practical calculation models of the bearing capacity and of the settlement are presented, particularly from the results of Ménard pressuremeter tests and cone penetration tests. Attention is also given to the use of numerical methods, which has been developed over the past twenty years. It provides an overview of various elements of ground-structure interaction that are pertinent for a refined design of both shallow and deep foundations, such as allowable displacements of structures, and ground-structure couplings. This guide will be useful to practising engineers and experts in design offices, contracting companies and administrations, as well as students and researchers in civil engineering. Though its focus is generally on the French practice, it is more widely applicable to design based on, or generally in line with, Eurocode 7, with references to BS ENs. Roger Frank is an Honorary Professor at Ecole Nationale des Ponts et Chaussées (ENPC). From 1998 to 2004, he chaired the committee on Eurocode 7 on Geotechnical design. Fahd Cuira is the Scientific Director of Terrasol (Setec group), France. Since 2018, he has been in charge of the course on the design of geotechnical structures at ENPC. Sébastien Burlon is a Project Director at Terrasol (Setec group), France. He is involved in the evolution of Eurocode 7 and teaches several geotechnical courses, especially at ENPC.

You're probably thinking this is just another typical study guide. Because we know your time is limited, we've created a resource that isn't like most study guides. With Trivium Test Prep's unofficial NEW CEN Review Book 2018-2019: CEN Study Guide and Practice Test Questions for the Certified Emergency Nurse Exam you'll benefit from a quick-but-comprehensive review of everything tested on the exam

This book is designed to assist emergency nurses to prepare for as well as assess readiness for the certified emergency nursing (CEN) exam. There are numerous multiple choice questions similar to those found on the CEN exam, as well as the correct answers for those questions and rationales for those answers. This book is one book in a series of four pocket practice books, each dealing with different topics. The topics in book one include: endocrine emergencies, fluid and electrolyte emergencies, hematological emergencies, infectious disease emergencies, professional issues, psychological and social emergencies.

Here's the book you need to prepare for Exam 70-219, Designing a Microsoft Windows 2000 Directory Services Infrastructure: In-depth coverage of every exam objective Practical information on designing a Directory Services infrastructure Hundreds of challenging review questions, in the book and on the CD Leading-edge exam preparation software, including a testing engine and electronic flashcards Authoritative coverage of all exam objectives, including: Analyzing business requirements Analyzing technical requirements Designing a Directory Service architecture Designing service locations Analyzing desktop management business requirements Designing and planning the OU structure Planning for coexistence of Active Directory and other directory services Note: CD-ROM/DVD and other supplementary materials are not included as part of eBook file.

World economics and the industrial environment has recently created a fertile ground for the creation of new enterprises and start-ups. This book skilfully identifies the challenges of building a new business venture from an idea to a marketable product. It highlights • Robust methods for keeping up with innovation; • Designing new ways to grow, improve and market your product; and • Managing the changes in the business environment, market dynamics and other uncertainties. The volume is rich with examples and case studies of many small and large businesses. It further reflects on the business and entrepreneurship ecosystem, the challenges and opportunities in India, entrepreneurship and women, e-commerce, the new generation of entrepreneurs, and exit strategies for entrepreneurs. An essential guide for entrepreneurs and professionals working in business management and marketing communications, as well as scholars of business administration and financial sciences, this book by an industry expert offers many new and practiced approaches, examples and lessons for innovative thinking and breaking new ground in business.
