Abstract. A food allergen has the ability to first elicit an immunoglobulin E (IgE) response,

Where To Download Food

and then, on subsequent exposures, to elicit a clinical response to the same or similar protein.

However, despite increasing knowledge of the structure and amino acid sequences of the

Where To Download Food

identified
allergens, only
a few
biochemical
characteristics
can be
associated with
food allergens,
such as the
biochemical
characteristics
that allow a
food protein to
