Make sure your warranty is expired, if the UPS is still under warranty, you can claim and they will change free for you. APC have 2 years warranty, and other brand maybe have 1 year warranty only. I found that APC is not using own brand battery too, so, don’t think that big company will give you good things inside.

How to repair UPS • Justin.my

See, for a long time I was pushing online repair manuals from Alldata and Mitchell1. I made some money, and in all fairness, they have a great product. The online manuals gave excellent repair information, had the exploded views and wiring diagrams that I needed to fix my car plus kept me up to date on recalls and TSB information.

Understanding how to properly maintain and manage UPS batteries can not only extend battery service life, but it can also help prevent costly downtime. The most common type of battery used in today’s UPSs is the valve-regulated lead acid (VRLA) battery, also known as a sealed or maintenance-free battery.
