Edmund Burke, Reflections on the Revolution in France (1790) The outbreak of the French Revolution in the summer of 1789 stirred the imagination of nearly all Europeans. The French revolutionaries - that is, those men and women who made conscious choices - sensed in their hearts and minds that they were witnessing the birth of a new age.*

The French Revolution: A Captivating Guide to the Ten-Year ...

The French Revolution: A History was written by the Scottish essayist, philosopher, and historian Thomas Carlyle. The three-volume work, first published in 1837 (with a revised edition in print by 1857), charts the course of the French Revolution from 1789 to the height of the Reign of Terror (1793-94) and culminates in 1795.

The French Revolution: A History - Wikipedia

The French Revolution is still our model today: history is violent change, and this change goes by the name of progress." The quote may sound cold and ruthless, but that can also be the face of revolution. Hourly History provides a brief look at the revolution in France, and will be beneficial to anyone unfamiliar with this time in history.

If you want to discover captivating stories of people and events of the French Revolution, then keep reading... Two captivating manuscripts in one book: The French Revolution: A Captivating Guide to the Ten-Year Revolution in France and the Impact Made by Napoleon Bonaparte Marie Antoinette: A Captivating Guide to the Last Queen of France Before and During the French Revolution, Including Her Relationship with King Louis XVI Few historical events are as greatly revered and entirely misunderstood as the French Revolution that began in 1789. The memory of this complicated and lengthy political, violent uprising has been generally painted in broad--and oversimplified--strokes. While the French Revolution was certainly centered around two lavish monarchs and an enlightened common class, there was so much more going on behind the scenes. Even after the abolition of the French monarchy, France struggled to find a balance between public self-governance and European stability. A fragile government, merely a shell of its former self following the Reign of Terror under Robespierre, was no match for the military and political prowess of Napoleon I. Some of the topics covered in part 1 of this book include: A Brief History of the French Monarchy Philosophies of the Times France in the 18th Century Marie Antoinette, Madame Deficit Taxes, Famine, and the Enlightenment Sieyes' "What is the Third Estate?" The National Assembly Death of the Dauphin Bastille Day The First Mayor of Paris Declaration of the Rights of Man...and The Women's March France at War The Flight to Varennes Storming the Tuileries The Monarchy is Outlawed The Fate of the Colonies The Louisiana Purchase The Reign of Terror The New French Calendar Emperor Napoleon Bonaparte In the Days and Years Afterward And much, much more! Some of the topics covered in part 2 of this book include: An Archduchess is Born Maria Antonia Becomes Marie Antoinette The Dauphine Queen at Nineteen A Marriage at Odds with Itself The Issue of Heirs Madame Deficit Count Axel von Ferson The Lost Children The Diamond Necklace Scandal Queen of Fashion The French Revolution The October Chapter Anxious Days at the Tuileries An Attempt to Flee Death of the Monarchy And much more! So if you want to learn more about the French Revolution, click the "add to cart" button!

A bold new history of the French Revolution from the standpoint of the peasants, workers, women and sans culottes. The legacy of the French Revolution has remained a fascinating and contentious subject for over two centuries. Instead of seeing the revolution as an aberrant bloodbath on the path to a liberal society, this new book, the first significant history of the French Revolution in over twenty years, maintains that it fundamentally changed the Western world. Looking at history from the bottom up, the history of working people and peasants, Hazan asks: How did they see their opportunities? What were they fighting for? What was the Terror and could it be justified? And how was the revolution stopped in its tracks? This is vivid historical writing - the multitude of voices of the Revolution come to life. Hazan shows how only through the people can we fully understand the legacy of the French Revolution.

Handy introduction to one of the most significant and studied events in world history Blending narrative with analysis, Peter Davies explores a time of obscene opulence, mass starvation, and ground-breaking ideals; where the streets of Paris ran red with blood, and the numbers requiring execution precipitated the invention of the guillotine. Davies brings the subject up to date by considering the legacy of the revolution and how it continues to resonate in today's France.

A phenomenon of the pre-industrial age, the Sans-Culottes--master craftsmen, shopkeepers, small merchants, domestic servants--were as hostile to the ideas of capitalist bourgeoisie as they were to those of the ancien regime which was overthrown in the first years of the Revolution. Here is a detailed portrait of who these people were and a sympathetic account of their moment in history.

The Oxford Handbook of the French Revolution brings together a sweeping range of expert and innovative contributions to offer engaging and thought-provoking insights into the history and historiography of this epochal event. Each chapter presents the foremost summations of academic thinking on key topics, along with stimulating and provocative interpretations and suggestions for future research directions. Placing core dimensions of the history of the French Revolution in their transnational and global contexts, the contributors demonstrate that revolutionary times demand close analysis of sometimes tiny groups of key political actors - whether the king and his ministers or the besieged leaders of the Jacobin republic - and attention to the deeply local politics of both rural and urban populations. Identities of class, gender and ethnicity are interrogated, but so too are conceptions and practices linked to citizenship, community, order, security, and freedom: each in their way just as central to revolutionary experiences, and equally amenable to critical analysis and reflection. This volume covers the structural and political contexts that build up to give new views on the classic question of the 'origins of revolution'; the different dimensions of personal and social experience that illuminate the political moment of 1789 itself; the goals and dilemmas of the period of constitutional monarchy; the processes of destabilisation and ongoing conflict that ended that experiment; the key issues surrounding the emergence and experience of 'terror'; and the short- and long-term legacies, for both good and ill, of the revolutionary trauma - for France, and for global politics.

From the beginning of the French Revolution in July 1789 until the end of the Terror five years later, those involved sought to devise survival strategies according to their personal beliefs and goals. The acceleration of time coupled with the lack of reliable information made it extremely difficult to choose the wisest course of action, causing some to flee into exile, while others remained in France. Surviving the French Revolution: A Bridge across Time, by Bette Oliver, is an essential contribution to our understanding of the struggle to survive during the French Revolution.
