How Software Works breaks down these processes with patient explanations and intuitive diagrams so that anyone can understand-no technical background is required, and you won't be reading through any code. In plain English, you'll examine the intricate logic behind the technologies you constantly use but never understood.

How Software Works - V. Anton Spraul - häftad ...

However, once the rules of each system of magic are internalized by the practitioner, a great deal of improvisation may be done for any given ritual or magical job of work. The mark of a good magician in his or her own school of magic is his or her ability-to borrow an analogy from music-to seamlessly improvise a tune within the chord structure of the system being used."

So I'm either misunderstanding how MAagic works or I'm doing it wrong. Simple Example: Fixture 1 Blue. Fixture 2 Red. Fixture 3 Green. When I call this MAagic preset it skips blue all together. I kind of expected blue to align from 100 to 0 over 1/2 of the selected range something like this: Preemptive Edit: Before I posted this I realized my ...
