Essays by a diverse group of activists, politicians, and scholars review the effects of the Universal Declaration of Human Rights and consider the potential and the challenges of the future.

Freedom of religion is a subject, which has throughout human history been a source of profound disagreements and conflict. In the modern era, religious-based intolerance continues to provide lacerative and tormenting concern to the possibility of congenial human relationships. As the present study examines, religions have been relied upon to perpetuate discrimination and inequalities, and to victimise minorities to the point of forcible assimilation and genocide. The study provides an overview of the complexities inherent in the freedom of religion within international law and an analysis of the cultural-religious relativist debate in contemporary human rights law. As many of the chapters examine, Islamic State practices have been a major source of concern. In the backdrop of the events of 11 September 2001, a considerable focus of this volume is upon the Muslim world, either through the emergent State practices and existing constitutional structures within Muslim majority States or through Islamic diasporic communities resident in Europe and North-America.

This collection examines the concept of human rights in a variety of cultural and historical contexts. The contributors analyze cognitive contexts that produce

different meanings of rights, identify spaces of intercultural crossings where differences can coexist, and offer narratives and metaphors to help mediate between distinct cultures.

A New York Times New Book to Watch For (November 2020) The former New York Times Pakistan bureau chief paints an arresting, up-close portrait of a fractured country. Declan Walsh is one of the New York Times's most distinguished international correspondents. His electrifying portrait of Pakistan over a tumultuous decade captures the sweep of this strange, wondrous, and benighted country through the dramatic lives of nine fascinating individuals. On assignment as the country careened between crises, Walsh traveled from the raucous port of Karachi to the salons of Lahore, and from Baluchistan to the mountains of Waziristan. He met a diverse cast of extraordinary Pakistanis—a chieftain readying for war at his desert fort, a retired spy skulking through the borderlands, and a crusading lawyer risking death for her beliefs, among others. Through these “nine lives” he describes a country on the brink—a place of creeping extremism and political chaos, but also personal bravery and dogged idealism that defy easy stereotypes. Unbeknownst to Walsh, however, an intelligence agent was tracking him. Written in the aftermath of Walsh's abrupt deportation, *The Nine Lives of Pakistan* concludes with an astonishing encounter with that agent, and his revelations about Pakistan's powerful security state. Intimate and complex, attuned to the centrifugal forces of history, identity, and faith, *The Nine Lives of Pakistan* offers an
