service life required of the structure. There are different ways of protecting steel structures from corrosion. ISO ...

Paints and varnishes □ Corrosion protection of steel ...

ISO 12944 The ISO 12944 standard aims to assist engineers and corrosion experts in adopting best practices in corrosion protection of structural steel in new constructions. It is a widely adopted and globally accepted industry standard, recognised by specifiers worldwide.

ISO 12944-2018 - Nippon Paint Co Ltd

ISO 12944 is an international standard on corrosion protection of steel structures by protective paint systems. It consists of several parts: Part 1: General introduction; Part 2: Classification of environments; Part 3: Design considerations; Part 4: Types of surface and surface preparation; Part 5: Protective paint systems ; Part 6: Laboratory performance test methods and associated ...

ISO 12944 - Wikipedia

There are three major changes in environmental categorisation as described in ISO 12944. There are now five environmental categories for onshore assets, ranging from C1 (very low corrosivity, typically in a climate-controlled indoor environment) to C5 (very high corrosivity environments, such as a coastal refinery).
