JIGS AND FIXTURES: Non-standard Clamping Devices: Grant ...

The most common type of jig is the drill jig, which guides the drill bit for creating holes at desired locations. Using of drill jigs increases production rate drastically by eliminating the time spent using a square scribe, height gauge, center punch, etc. The fixture is the tool which holds the work piece with the machine bed precisely at the desired location.

Jigs and Fixtures - Applications and Difference Between ...

Jigs and Fixtures are production tools used to accurately
