Management-

Griffith

University

When disposing

hazardous

laboratory

chemical waste,

chemical

compatibility

must be

considered. For

safe disposal,

the container

must be

# Where To Download

chemically  
compatible with  
the material it  
will hold.

Chemicals must  
not react with,  
weaken, or  
dissolve the  
container or  
lid. Acids or  
bases should not  
be stored in  
metal.

Hydrofluoric

# Where To Download

acid should not  
store in glass.
