This is the first biography of a world-famous pioneering development economist, Sir Hans W. Singer, who is better known throughout the developing world than any other economist, living or dead. It gives a detailed account of the way in which the 'twists of fate' led him to becoming a leading development economist. It contains a thematic synthesis of all his major theoretical and conceptual work and of the many initiatives in which he has been involved to

market shortages or to add to their stock of 'knowledge workers'. The 'knowledge economy', and the increasing value placed on human capital over physical capital, has led to what some describe as a 'war over skills'. Within this context, the way in which Australia seeks to attract skilled permanent and temporary migrants is put under the spotlight in this very timely publication. Are we open and flexible or defensive and protectionist? This book compares the policies of Australia with those of other nations. What makes this book unique is the input of lawyers, for the first time in Australia, in the discussion of issues. Their challenge to existing selection policies, taxation

systems and recognition mechanisms provides a major new contribution to these topics.

This is the first English translation of one of the classical works of Marxist economic theory. When Rudolf Hilferding's *Finance Capital* was first published in 1919 it was acclaimed by reviewers as a continuation of Marx's *Capital*, and it has a major influence upon subsequent Marxist thought, especially in the analysis of imperialism where it provided some of the fundamental ideas for the theories of Bukharin and Lenin. But Hilferding's work was

much more than a study of imperialism, which was presented only in the last section of the book. It set out to examine the main tendencies in the development of the capitalist mode of production as a whole at the beginning of the twentieth century, beginning with an exposition of the theory of money (in which particular attention was paid to the growth of credit money), then analysing the increasingly important role of the banks in the mobilization of capital, along with the development of large corporations, cartels and trusts, and finally outlining a theory of economic crises. Hilferding's book has, however, more than an historical interest. It is a model for
