Lateral Thinking Situations or Situation Puzzles

What is lateral thinking? It essentially means being able to think creatively or "outside the box" in order to solve a problem. Usually, logical thinking is used to solve problems in a direct, straightforward way (also known as vertical thinking). Lateral thinking however, looks at things from a sideways perspective (also known as horizontal thinking), in order to find answers that aren't immediately apparent.

Lateral thinking is a manner of solving problems using an indirect and creative approach via reasoning that is not immediately obvious. It involves ideas that may not be obtainable using only traditional step-by-step logic. Considered pseudo-science by some, the term was first used in 1967 by Edward de Bono in his book *The Use of Lateral Thinking*. De Bono cites the Judgment of Solomon as an example of lateral thinking, where King Solomon resolves a dispute over the parentage of a child by callin
