The Lifeclock One is a fully licensed reboot of Snake Plissken's watch prop from Escape From New York™, but with a twist.

LifeClock is perhaps what most captures the imagination of those new to the work of Bruno and Louise Huber. The horoscope is seen as a clock for the person's lifetime, with the Age Point indicating their age as the 'time' on the clock. Those trying it for themselves invariably find significant correspondences between indications in their birth chart and psychological crises and other meaningful events in their lives. This deepens self-understanding and provides impetus and insight to their psychological and spiritual growth. The

effectiveness and value of this surprisingly simple approach to astrological timing is repeatedly confirmed. Counsellors and others in the helping professions find this a powerful tool, helping them to quickly identify the psychological sources of a client's problems. We are delighted to make available this integrated edition of LifeClock, incorporating the two separate volumes originally published by Weiser in 1982-6. This is one of eight volumes by the Hubers covering astrological psychology, a powerful combination of astrology with modern psychological understanding pioneered by them and recognised as the Huber Method. LifeClock contains an appendix introducing this approach, so is easily accessible to those unfamiliar with it. Essential material for all students of astrological psychology and the Huber Method!

A man shouldn't die with no understanding of why he's been murdered Renowned throughout the land of Ankhana as the Blade of Tyshalle, Caine has killed his share of monarchs and commoners, villains and heroes. He is relentless, unstoppable, simply the best there is at what he does. At home on Earth, Caine is Hari Michaelson, a superstar whose adventures in Ankhana command an audience of billions. Yet he is shackled by a rigid caste society, bound to ignore the grim fact that he kills men on a far-off world for

the entertainment of his own planet—and bound to keep his rage in check. But now Michaelson has crossed the line. His estranged wife, Pallas Rill, has mysteriously disappeared in the slums of Ankhana. To save her, he must confront the greatest challenge of his life: a lethal game of cat and mouse with the most treacherous rulers of two worlds . . .

The travelers are back, with supercharged push-button technology to control time and space. A martial-arts prodigy and a counterterrorism agent are swept into the pre-Flood world where hideous giants are at war with mankind, aided by spirits with frightening powers. While history accommodates them, it also

constrains them, requiring cunning and creativity to affect justice and to rescue the doomed as their skills are stretched to the limit. Light deals with the genetic corruption preceding the Flood and how modern genetic enhancement plays into this model in the Last Days. He integrates potential pre-Flood physics and cosmology with the possible technologies available to the first generations of humanity. The biblical dawn of man included gargantuan animals, strange landscapes, and spirit-born technologies, an early light of brilliance snuffed out by sin and violence. Dawn's early light will shine again upon the Redeemer's return. Winner - 2018 Henri Award for Youth and Young Adult Category, Christian Literary Awards
