Wilbur Schramm - Communication - Oxford Bibliographies

Wilbur Schramm proposed the model of communication in 1954. Information is of no use unless and until it is carefully put into words and conveyed to others. Encoding plays a very important role because it initiates the process of communication by converting the thought into content.

Schramm's Model of Communication - Management Study Guide

For instance, if a factory machine is valued at \$ 3 million that produces output worth \$ 1 million, then we can calculate $\frac{3}{1} = 3$. This means that if a producer wants to produce an output of \$ 1 million each year, he should invest \$ 3 million on the factory machine.

Schramm's Model of Communication - Businessstopia

The Osgood-Schramm model of communication is a communication theory. It explains how we communicate with one another, mainly through speech, writing and discourse. It emphasizes four key principles: That communication is circular, not linear. The listener can both receive and send messages (in most instances). That communication is usually equal and reciprocal
