Multimodality and Social Semiosis | Taylor & Francis Group  
' This book is poised to make a seminal contribution in learning, communication, and multimodality. It challenges educators to recognise the signs of learning beyond contemporary measures and presents a productive framework around learning, in light of the social and technological changes in our world today. ' Victor Lim Fei, Singapore. 'The authors show high originality and independent thinking as they challenge spurious inventions and naming of ' emerging new domains ', refuse ...

Multimodality and Social Semiosis: Communication, Meaning ...  
Multimodality is an inter-disciplinary approach that understands communication and representation to be more than about language. It has been developed over the past decade to systematically address much-debated questions about changes in society, for instance in relation to new media and technologies. Multimodal approaches have provided concepts, methods and a framework for the collection and...
