My Art, My Life is about Rivera's life, work and thought, in his own words. He comes across as an arrogant man but then why not...he is an unique individual who is a genius in the mural medium as well as unique and very Mexican paintings. My Life in Art by Konstantin Stanislavski

My life is about creation; the creation of new life through helping my patients to conceive children and the creation of art through distinguishable media. My informal painting career began in the early 1970s, I happened to start my medical career around the same time. Throughout my years in medical school and residency (the 70s and early 80s), I discovered my persona through art. I found that in both art and medicine beauty exists in creation, my unique perspective transcends both mediums.
