Nelson Biology 11 is a one-of-a-kind hybrid resource that integrates the best features from both Applied and University Preparation resources to ensure success in college preparation courses. Features & Benefits: ? Workbooks help students manage their learning and ultimately stimulate better performance ? Average of 2-3 pages of support material per text section which include organizational supports, Alternative Exercises, and Extension Exercises ? Strong support for reading/comprehension, work habits, and study/organizational skills

Nelson Biology 11 is a one-of-a-kind hybrid resource that integrates the best features from both Applied and University Preparation resources to ensure success in college preparation courses. Developed specifically to support Ontario's new Biology 11 College Preparation course (SBI3C), this highly readable resource addresses the needs of a larger and more diverse student base by placing a stronger emphasis on STSE and practical applications instead of theoretical rigour. Features & Benefits: • Thoroughly researched and validated with Ontario teachers and students • Written by teams of experienced Canadian educators sensitive to the needs and interests of students in these courses • 100% coverage of all expectations in Biology 11 College Preparation curricula • Concise, manageable lessons that emphasize concrete applications of theoretical concepts • Instructional graphics, photos, and illustrations facilitate the learning of complex biological processes • Student workbooks help students manage their learning • Content is presented in manageable unit sections rather than chapters • Provides strong support for reading/comprehension, work habits, and study/organizational skills • Online web support for instructors and students, including links and online quizzes
