An intimate, beautifully written coming-of-age memoir recounting a young girl's journey from war-torn Vietnam to Ridgewood, Queens, and her struggle to find her voice amid clashing cultural expectations. Ly

Tran is just a toddler in 1993 when she and her family immigrate from a small town along the Mekong river in Vietnam to a two-bedroom railroad apartment in Queens. Ly's father, a former lieutenant in the South Vietnamese army, spent nearly a decade as a POW, and their resettlement is made

possible through a humanitarian program run by the US government. Soon after they arrive, Ly joins her parents and three older brothers sewing ties and cummerbunds piece-meal on their living room floor to make ends meet. As they navigate this new landscape, Ly finds herself torn between two worlds.

She knows she must honor her parents' Buddhist faith and contribute to the family livelihood, working long hours at home and eventually as a manicurist alongside her mother at a nail salon in Brownsville, Brooklyn, that her parents take over. But at school, Ly feels the mounting pressure to blend in. A

growing inability to see the blackboard presents new challenges, especially when her father forbids her from getting glasses, calling her diagnosis of poor vision a government conspiracy. His frightening temper and paranoia leave an indelible mark on Ly's sense of self. Who is she outside of everything

her family expects of her? Told in a spare, evocative voice that, with flashes of humor, weaves together her family's immigration experience with her own fraught and courageous coming of age, *House of Sticks* is a timely and powerful portrait of one girl's struggle to reckon with her heritage and forge her own path.

"This book is a message from autistic people to their parents, friends, teachers, coworkers and

doctors showing what life is like on the spectrum. It's also my love letter to autistic people. For too long, we have been forced to navigate a world where all the road signs are written in another language." With a reporter's eye and an insider's perspective, Eric Garcia shows what it's like to be autistic

Download File PDF Nick Austin

across America. Garcia began writing about autism because he was frustrated by the media's coverage of it; the myths that the disorder is caused by vaccines, the narrow portrayals of autistic people as white men working in Silicon Valley. His own life as an autistic person didn't look anything like that. He is Latino, a graduate

Download File PDF Nick Austin

of the University of
North Carolina, and
works as a journalist
covering politics in
Washington D.C. Garcia
realized he needed to
put into writing what so
many autistic people
have been saying for
years; autism is a part of
their identity, they don't
need to be fixed. In
We're Not Broken,
Garcia uses his own life

Download File PDF Nick Austin

as a springboard to discuss the social and policy gaps that exist in supporting those on the spectrum. From education to healthcare, he explores how autistic people wrestle with systems that were not built with them in mind. At the same time, he shares the experiences of all types of autistic people, from those with

Download File PDF Nick Austin

higher support needs, to autistic people of color, to those in the LGBTQ community. In doing so, Garcia gives his community a platform to articulate their own needs, rather than having others speak for them, which has been the standard for far too long.

Awareness has been

growing in the United States - and in nations around the world - that the Chinese Communist Party (CCP) has triggered a new era of great-power competition. Yet few discern the pattern in China's inroads within every region of the world, much less the specific form of dominance to which the

party aspires. The CCP aims not merely at preeminence within the established world order - an order that is grounded in free and sovereign nation-states, flows from the universal principles on which America was founded, and advances U.S. national interests - but to fundamentally revise world order, placing the

China (PRC) at the

Beijing's authoritarian

the China challenge, the
United States must

a challenge because of
its conduct. Modeled on
20th-century Marxist-
Leninist dictatorship,
the CCP eventually

spurred rapid modernization and produced prodigious economic growth - thanks in no small measure to the party's decision in the late 1970s to embrace free-market elements and to the decision by the United States and nations around the world to engage, and welcome commerce

with, China. The party today wields its economic power to co-opt and coerce countries around the world; make the societies and politics of foreign nations more accommodating to CCP specifications; and reshape international organizations in line with China's brand of socialism. At the same time, the CCP is

developing a world-class military to rival and eventually surpass the U.S. military. These actions enable the CCP to credibly pursue the quest - proceeding outward through the Indo-Pacific region and encompassing the globe - to achieve "national rejuvenation" culminating in the transformation of the

international order. To understand China's peculiar form of authoritarianism and the hegemonic goals to which it gives rise, it is necessary to grasp the intellectual sources from which China's conduct springs: the CCP's Marxist-Leninist beliefs and the party's extreme interpretation of Chinese nationalism.
