## Otology and Neurotology - Overview - Mayo Clinic

Neurotology is closely related to otology but adds the training and skill to operate within the skull on the parts of the brain and nervous system related to hearing and balance. Neurotologists operate on acoustic neuromas, glomus tumors, and other conditions found deep in the skull. Neurotologists also perform cochlear implantation surgery.

Otology / Neurotology | Chicago Medicine

Otologic surgery is a very technical skill that requires significant training. It generally refers to middle ear and mastoid surgery, including stapedectomy, ossicular reconstruction, stapedectomy and cholesteatoma surgery. Neurotology generally refers to treatment of the neurologic conditions of the ear. Inner ear surgeries that treat these conditions, and that have a greater risk to the hearing and balance organs deserve a distinction, and are generally referred to as neurotologic surgery.
