Photophobia: Causes, Treatments & Prevention

Acces PDF Photosensitivity

Photophobia, or light sensitivity, is an intolerance of light. Sources such as sunlight, fluorescent light and incandescent light all can cause discomfort, along with a need to squint or close

Acces PDF Photosensitivity

your eyes. Headaches also may accompany light sensitivity. Light-sensitive people sometimes are bothered only by bright light.

Photophobia (light

Acces PDF Photosensitivity

sensitivity): Learn about causes and ...

Photosensitivity (or sun sensitivity) is inflammation of the skin induced by the combination of sunlight and certain medications or substances. This causes

Acces PDF Photosensitivity

redness of the skin and may look similar to sunburn. Both the photosensitizing medication or chemical and light source have to be present in order for a photosensitivity reaction to occur.
