Health Assessment, 7th Edition makes it fast and easy to look up essential assessment skills and techniques. You'll conduct more effective exams by referring to summaries of examination steps, normal versus abnormal findings, lifespan and multicultural considerations, and over 250 full-color photos and illustrations. Written by well-known educator and clinician Carolyn Jarvis, this handbook is a perfect clinical tool whether you're a beginner who is learning assessment skills or a practitioner who needs a portable reference! Convenient two-column format makes it easier to access, learn, and understand key physical examination skills and findings. More than 250 full-color illustrations demonstrate examination skills, underlying anatomy and physiology, and normal and abnormal findings. Color-coded design helps you easily locate the information you need, dividing each body system chapter into major sections (anatomy, subjective data, objective data, and abnormal findings). Abnormal findings tables help you recognize, sort, and describe key abnormal findings. Summary checklists offer reviews of key examination steps for quick reference. Developmental Competence sections highlight content specific to infants, children, adolescents, pregnant women, and older adults. Spanish-language translation chart helps you improve communication with Hispanic patients during the physical examination. Cultural Competence sections provide a context for care of multicultural patient groups. NEW evidence-based guidelines reflect a focus on conducting the most effective, qualitative exams. NEW content on the Electronic Health Record, charting, and narrative recording includes examples of how to document assessment findings. NEW photos of normal and abnormal findings show the nose, mouth, throat, thorax, and pediatric assessment, including developmental and cultural variations.

With an easy-to-read approach and unmatched learning support, Physical Examination & Health Assessment, 6th Edition offers a clear, logical, and holistic approach to physical exam across the

lifespan. Detailed illustrations, summary checklists, and new learning resources ensure that you learn all the skills you need to know. This gold standard in physical exam reflects what is going on in nursing today with coverage of emerging trends and new evidence-based content. It's easy to see why this text is, far and away, #1 in this market! This item is a stand-alone text. A clear, conversational writing style makes learning easier. A two-column format distinguishes normal findings from abnormal findings, and uses color, step-by-step photos to clarify examination techniques and expected findings. Over 1,000 full-color illustrations present anatomy and physiology, examination techniques, and abnormal findings. Developmental considerations help in caring for patients across the lifespan with age-specific assessment techniques for infants, children, adolescents, pregnant females, and older adults. Abnormal findings tables include over 300 pathology photos to help in recognizing, sorting, and describing abnormalities. Promoting a Healthy Lifestyle boxes enable patient teaching and health promotion while performing the health assessment. An emphasis on cultural competencies reflects today's care considerations for an increasingly diverse patient population. Documentation examples show how to record assessment findings in the patient's chart, using the SOAP format. Summary checklists provide a quick review of examination steps. Spanish-language translations on the inside back cover highlight important phrases for better communication during the physical examination. A companion Evolve website helps you review key content offering case studies with critical thinking questions, printable health promotion handouts, a head-to-toe examination video, heart and lung sounds, audio chapter summaries, and more. NEW evidence-based guidelines reflect a focus on conducting the most effective, qualitative exams. NEW Substance Use Assessment chapter addresses this increasingly critical aspect of holistic patient assessments. 100 new photos of step-by-step examination techniques include all-new exam panoramas for key systems. 100 new abnormal findings photos provide instant visual cues for

findings that are unexpected or that require referral for follow-up care. Expanded chapter on assessment of the hospitalized adult provides a focused assessment of the patient in the hospital setting. New content on obesity provides current information on this growing health problem.

Ideal for quick reference in the clinical setting, this portable companion to Carolyn Jarvis' *Physical Examination and Health Assessment, 2nd Canadian Edition* summarizes essential assessment skills and techniques for the most effective physical examinations. This convenient clinical tool provides fast, easy access to full-colour pathology photos and illustrations, health history, examination steps for each body system, normal versus abnormal findings, lifespan and cultural considerations, nursing diagnoses, and summary checklists. Convenient, colour-coded design helps students easily locate the information they need. More than 200 full-colour illustrations clearly demonstrate important anatomy and physiology concepts, examination steps, and normal and abnormal findings. Age-specific developmental competencies highlight important considerations for pediatric, pregnant, and aging patients. Cultural competency icons alert students to relevant cultural considerations in the clinical setting. Abnormal findings tables provide fast access to key information on many frequently encountered conditions. Updated evidence-informed practice guidelines throughout the guide reflect the most current research and assessment practices. New! *Bedside Assessment of the Hospitalized Adult* chapter outlines the pertinent assessment steps in a focused exam in the inpatient setting. New abnormal findings photos help students recognize and distinguish between abnormal conditions. Additional full-colour examination technique photos clarify exam steps for eyes, nose, mouth, throat, thorax, heart, neck, peripheral
