Whittington/Pany is our market leader in the auditing discipline. While most textbooks use a cycles approach, Whittington/Pany enlists a balance sheet approach - making it particularly straightforward and user-friendly in addressing the auditing profession's risk-based approach for financial statement audits as well as for integrated audits of financial statements and internal control. The 18th edition covers the latest auditing standards to meet the needs of the current marketplace. The authors are well connected - both Ray Whittington and Kurt Pany served as members of the Audit Standards Board, and Whittington recently completed his term as President of the Auditing Section of the American Accounting Association.

Principles of External Auditing has become established as one of the leading textbooks for students studying auditing. Striking a careful balance between theory and practice, the book describes and explains, in non-technical language, the nature of the audit function and the principles of the audit process. The book covers international auditing and accounting standards and relevant statute and case law. It explains the fundamental concepts of auditing and takes the reader through the various stages of the audit process. It also discusses topical aspects of auditing such as legal liability, audit risk, quality control, and the impact of information technology. Brenda Porter is currently visiting Professor at Exeter University and Chulalongkorn University, Bangkok.

The first textbook based upon International Standards on Auditing (ISAs), this fully revised and updated fourth edition presents a structured approach to auditing principles using ISAs as its basis. The International Standards on Auditing are now widely regarded as the global benchmark for auditing standards and as such an important audit quality indicator. This book describes the developments and practical use of all ISAs, as well as significant national standards in different countries. The new edition has been updated in line with International Standards and presents a truly international perspective. The book provides students with a real-world perspective as close to current auditing practice and thinking as possible. Key features: Structure of the book following the four phases of the audit process Coverage of the latest auditing insights including technology and automated tools & techniques (data analytics) Updates of the most recent auditing & assurance standards, including ISA 315 and 540 Highlighting the broader range of assurance engagements Practice exam-style questions with end-of-chapter answers
