<p>Report shows that employers across Qatar frequently violate workers' right to wages and that Qatar has failed to meet its 2017 commitment to the International Labour Organization to protect migrant workers. At the heart of the abuses lies the kafala, or sponsorship, system which give employers control over migrant workers.</p>
<p>An American woman determined to learn the Arabic language travels to the Middle East to pursue her dream in this "witty memoir" (Us Weekly). The shadda is the key difference between a pigeon (hamam) and a bathroom (hammam). Be careful, our professor advised, that you don't ask a waiter, "Excuse me, where is the pigeon?"—or, conversely, order a roasted toilet... If you've ever studied a foreign language, you know what happens when you first truly and clearly communicate with another person. As Zora O'Neill recalls, you feel like a magician. If that foreign language is Arabic, you just might feel like a wizard. They say that Arabic takes seven years to learn and a lifetime to master. O'Neill had put in her time. Steeped in grammar tomes and outdated textbooks, she faced an increasing certainty that she was not only failing to master Arabic, but also driving herself crazy. She took a decade-long hiatus, but couldn't shake her fascination with the language or the cultures it had opened up to her. So she decided to jump back in—this time with a new approach. In this book, she takes us along on her grand tour through the Middle East, from Egypt to the United Arab Emirates to Lebanon and Morocco. She's packed her dictionaries, her unshakable sense of humor, and her talent for making fast friends of strangers. From quiet, bougainvillea-lined streets to the lively buzz of crowded medinas, from families' homes to local hotspots, she brings a part of the world thousands of miles away right to your door—and reminds us that learning another tongue leaves you rich with so much more than words. "You will travel through countries and across centuries, meeting professors and poets, revolutionaries, nomads, and nerds... [A] warm and hilarious book." —Annis Ciesadlo, author of Day of Honey "Her tale of her 'Year of Speaking Arabic Badly' is a genial and revealing pleasure." —The Seattle Times</p>
<p>Exam Board: Edexcel Level: GCSE Subject: Business First Teaching: September 2017 First Exam: June 2019 Endorsed for Edexcel Let Ian Marcouse successfully steer you through the new specification with his proven and popular approach to Business; clear content coverage is enhanced by numerous real-life examples to create a course that engages, motivates and develops every student. - Breaks down the content of the 2017 specification into clear, accessible explanations of important concepts and theories - Helps students apply their knowledge to a range of real business examples, issues and contexts, supported by 'Talking Points' that encourage critical and commercial thinking - Improves quantitative, investigative, analytical and evaluation skills through end-of-chapter exercises - Builds students' confidence approaching their exams as they practise calculation, short answer and extended-writing questions with stimulus materials - Boosts students' vocabulary and supports revision with definitions of key terminology for each topic</p>
<p>Principles of Agricultural Economics, now in its third edition, continues to showcase the power of economic principles to explain and predict issues and current events in the food, agricultural, and agribusiness sectors. This key text introduces economic principles in a succinct and reader-friendly format, providing students and instructors with a clear, up-to-date, and straightforward approach to learning how a market-based economy functions, and how to use simple economic principles for improved decision making. The field of agricultural economics has expanded to include a wide range of topics and approaches, including macroeconomics, international trade, agribusiness, environmental economics, natural resources, and international development and these are all introduced in this text. For this edition, new and enhanced material on agricultural policies, globalization, welfare analysis, and explanations of the role of government in agriculture and agribusiness is included. Readers will also benefit from an expanded range of case studies and text boxes, including more international cases, which discuss real world examples and issues including global hunger, biofuels, trade wars, agritourism, and climate change. This book is ideal for courses on agricultural economics, microeconomics, rural development and environmental policy. The work is fully supported by a companion website which provides users with extra content to enhance their learning and further their understanding of agricultural economics. Additional materials include flash cards, study guides, PowerPoint, multiple choice questions, essay questions, and an instructor's manual.</p>
<p>One of the Boston Globe's Best Sports Books of the Year: "Invasive, heartbreaking, important and even funny" (Jeremy Schaap, New York Times – bestselling author of Cinderella Man). The people of Brazil celebrated when it was announced that they were hosting the World Cup—the world's most-viewed athletic tournament—in 2014 and the 2016 Summer Olympics. But as the events were approaching, ordinary Brazilians were holding the country's biggest protest marches in decades. Sports journalist Dave Zirin traveled to Brazil to find out why. In a rollicking read that travels from the favelas of Rio de Janeiro to the fabled Maracanã Stadium to the halls of power in Washington, DC, Zirin examines Brazilians' objections to the corruption of the games they love; the toll such events take on impoverished citizens; and how taking to the streets opened up an international conversation on the culture, economics, and politics of sports. "Millions will enjoy the World Cup and Olympics, but Zirin justly reminds readers of the real human costs beyond the spectacle." —Kirkus Reviews</p>

Are Russian propaganda or "fake news" entrepreneurs on Facebook undermining our sense of a shared reality? A conventional wisdom has emerged since the election of Donald Trump in 2016 that new technologies and their manipulation by foreign actors played a decisive role in his victory and are responsible for the sense of a "post-truth" moment in which disinformation and propaganda thrives. Network Propaganda challenges that received wisdom through the most comprehensive study yet published on media coverage of American presidential politics from the start of the election cycle in April 2015 to the one year anniversary of the Trump presidency. Analysing millions of news stories together with Twitter and Facebook shares, broadcast television and YouTube, the book provides a comprehensive overview of the architecture of contemporary American political communications. Through data analysis and detailed qualitative case studies of coverage of immigration, Clinton scandals, and the Trump Russia investigation, the book finds that the right-wing media ecosystem operates fundamentally differently than the rest of the media environment. The authors argue that longstanding institutional, political, and cultural patterns in American politics interacted with technological change since the 1970s to create a propaganda feedback loop in American conservative media. This dynamic has marginalized centre-right media and politicians, radicalized the right wing ecosystem, and rendered it susceptible to propaganda efforts, foreign and domestic. For readers outside the United States, the book offers a new perspective and methods for diagnosing the sources of, and potential solutions for, the perceived global crisis of democratic politics.

Global Emergency Medicine is a burgeoning field, helping to improve medical care around the globe. The possibilities to contribute are endless, but learning how to becoming involved can be intimidating. This book serves as a guidebook for students, residents and others interested in global health work. The book contains several practical sections written by a panel of experts in the field.

North Korea Sanctions Regulations (US Office of Foreign Assets Control Regulation) (OFAC) (2018 Edition) The Law Library presents the complete text of the North Korea Sanctions Regulations (US Office of Foreign Assets Control Regulation) (OFAC) (2018 Edition). Updated as of May 29, 2018 The Department of the Treasury's Office of Foreign Assets Control (OFAC) is amending the North Korea Sanctions Regulations and reissuing them in their entirety, in order to implement three recent Executive orders and to reference the North Korea Sanctions and Policy Enhancement Act of 2016 and the Countering America's Adversaries Through Sanctions Act. OFAC is also incorporating several general licenses that have, until now, appeared only on OFAC's website on the North Korea Sanctions page, adding several new general licenses, and adding and expanding provisions to issue a more comprehensive set of regulations that will provide further guidance to the public. Finally, OFAC is updating certain regulatory provisions and making other technical and conforming changes. Due to the number of regulatory sections being updated or added, OFAC is reissuing the North Korea Sanctions Regulations in their entirety. This book contains: - The complete text of the North Korea Sanctions Regulations (US Office of Foreign Assets Control Regulation) (OFAC) (2018 Edition) - A table of contents with the page number of each section
