Following the murder of her would-be partner, archaeologist Lara Croft finds herself in the middle of a deadly battle between the Order of the Bronze and her arch-nemesis, Lancaster Urdmann, and his mysterious employer over control of an ancient bronze android with uncanny abilities. Original.

The Kaiser's Pirates graphically relates the story of the war against commerce carried out by the German surface raiders in 1914-17. In the period before submarine warfare became pre-eminent - and the wireless telegraph reduced a surface ship's ability to hide - the Imperial German navy employed a selection of men-of-war and merchantmen in an attempt to disrupt the maritime trade on which the British economy depended. Accompanied by a detailed alphabetical listing of the many victims, the book traces the exploits of the cruisers and the merchant-raiders, supported by first-hand testimony from victors and victims alike.
