A great start to a new series. The concept of
REV is awesome. I really enjoyed the opening
and TR barely gives you time to breathe as he
slams one action-packed scene in after
another. The story develops quickly and

logically. TR's easy-to-read style makes the book really enjoyable and difficult to put down.

REV, book 1 I have read all of this authors series on the Adam Cain series and this new series is just as good. Really happy to see that he is starting a new series. REV is action packed and a great read. Highly recommend this book to all sci-fi readers.

Revved by Samantha Towle is the second book in the Revved Series. I absolutely loved this book! I could not put it down. We met Leandro Silva in Revved. At the end of Revved Leandro was in a near fatal accident in one of the most important races of the Formula One circuit. He died and was brought back to life.
