High-Risk Robots (Robots and Robotics) - video dailymotion

OPINION: Robots perform tasks too high-risk for people By Louis Fourie May 16, 2020 Healthcare workers and their families are at the greatest risk of becoming infected with Covid-19, and this has...

OPINION: Robots perform tasks too high-risk for people

High-risk industries such as mining or fertilizer production turn to robots to avoid adverse events, ensuring the safety of their workers. The digital transformation of the manufacturing industry is a kind of industrial revolution, and like any revolution, it comes with both pros and cons.

How Artificial Intelligence and Robotics Change Our Lives

While bots can free up some resources, they don't eliminate the need for organizations to take a hard look at their IT capabilities and think about how they need to be modernized. There is a risk that the success of small automation exercises results in management concluding that it can avoid the expense and risk of larger initiatives.

Five Robotic Process Automation Risks To Avoid

03 Mar 2017. A new study reveals that robots for home, business or industrial use available in the market are highly susceptible to cyber attacks — making them a security risk. Method-II.

Robots Are Security Risks: New Study Reveals

"The biggest risk is cybersecurity—making sure that all these new systems are safe and that people cannot hack into them," Christensen said. While he believes that the robotics industry is safety-conscious, as robots meld with other emerging technologies and platforms such as the internet of things, he fears security lapses.

Rise of the Robots — Risk Management

Generic Robotics Lab risk assessment. ... Brief Description of work: Working with robots and other lab equipment. ... (low / medium / high); describe all existing control measures and identify any further measures required. Specific hazards should be assessed on a separate risk assessment form and cross-referenced with this document. Specific ...

Generic Robotics Lab risk assessment | InWeb

A few weeks ago I gave a short paper at the excellent International Conference on Robot Ethics and Standards (ICRES 2020), outlining a case study in Ethical Risk Assessment – see our paper here.Our chosen case study is a robot teddy bear, inspired by one of my favourite movie robots: Teddy, in A. I. Artificial Intelligence. Although Ethical Risk Assessment (ERA) is not new – it is after ...

RobotED: a case study in Ethical Risk Assessment | Robohub

LEADING EDGE REPAIR SOLUTION Our technology has been developed in close collaboration with market leaders in the renewable energy industry. It is based on the idea of substituting people in high risk tasks with robots and the wish to provide an automated repair process executed with uniform accuracy.

ROPE-ROBOTICS — EVOLUTION OF BLADE MAINTENANCE

Rian Whitton, senior robotics analyst at global tech market advisory firm ABI Research, says that robot deployment in places like nursing homes is low in practice and that Japan's recently eased ...

What the world can learn from Japan's robots - BBC Worklife

But although these machines have taken safety requirements to a higher level, we can't overlook the need for a proper risk assessment. Robotiq has a newly updated eBook on conducting risk assessments for collaborative robots. It outlines the four most important aspects of the process: document identification, general information about the robotic cell, machine assessment, and risk assessment.

How to Perform a Risk Assessment for Collaborative Robots

While healthcare workers are at high risk of contracting COVID-19 due to their proximity to the patients, humanoid robots are replacing human beings across the world to ensure social distancing.

These Made-in-India robots are helping health workers

Robots can help prevent injuries or adverse health effects such as musculoskeletal disorders and cuts to human workers. Risk assessments are crucial to safe and successful implementation of robots in the workplace.

Robots in the workplace | April 2018 | Safety+Health Magazine

The Flippy Robot. Being based in Pasadena, California, Miso Robotics has had advantages with recruiting top technical talent. After all, Caltech University is known for its expertise in AI and ...

How to Invest in Miso Robotics: Burger-Flipping Robot

Several robot manufacturers have produced robots with the capability to be used in direct food handling applications, including high risk and high care environments. Special coatings that can withstand the vast majority of corrosive chemicals used in washdowns and internal arm pressurisation kits to prevent bacterial ingress even under medium-to-high pressure hosedowns, are just two such examples of this.
