SAP ERP modules are notoriously hard to configure and use effectively without a lot of practice and experience. But as SAP ERP Financial Accounting and Controlling: Configuration and Use Management shows, it doesn't have to be so difficult. The book takes a systematic approach that leads SAP Financial Accounting and Controlling (FI/CO) users step by step through configuring and using all the program's facets. This approach makes configuration complexities manageable. The book's author-SAP expert, trainer, and accountant Andrew Okungbowa-ensures that both you and your end users are up and running quickly and confidently with FICO. He also provides sound and tested procedures that ensure your implementation works without error. SAP ERP Financial Accounting and Controlling: Configuration and Use Management is in fact the most comprehensive and easy-to-follow SAP FICO configuration book in the market. It incorporates a hands-on approach, with hundreds of screen shots and practical examples, that allows a person without prior configuration training to make SAP FICO ready for use in the enterprise. You'll find that you don't need to be a rocket scientist to grasp the concepts explained and apply them to your work-even when the finances are complicated, such as with the ins and outs of taxes, currency conversions, or special general ledger entries such as down payments or bills of exchange. Providing an in-depth coverage of both configuration and end user procedures, the book covers most aspects of the SAP FICO certification syllabus-SAP's view of the module's key tasks and procedures-including: Configuring and using the general ledger and accounts payable and receivable screens Configuring and completing closing procedures, asset accounting, and financial reporting Configuring global settings and enterprise variables Accounting for both profit and cost centers Creating a house bank Integrating FICO with other SAP modules Taking a jargon-free tone and providing an abundance of examples, Andrew Okungbowa provides a clear understanding of configuration techniques and the breadth of functionalities encompassed by SAP FICO. And as an accountant, Okungbowa understands the needs of end users as well as of those answering to the CIO.

In this book, noted expert Andrew Okungbowa explains SAP Asset Accounting (FI-AA) in SAP-ERP, including its associated business benefits, and guides you through the considerable complexities of SAP-ERP configuration. Using FI-AA for fixed asset management enables you to manage assets in multinational companies across a broad range of industries and produce reports to meet various needs in line with legal requirements. Configuring SAP-ERP can be a daunting exercise. However, and there are few resources that address these issues. Asset Accounting Configuration in SAP ERP fills that resource gap by covering the major aspects of SAP FI-AA for anyone with SAP experience and the basic accounting knowledge and bookkeeping skills necessary to apply configuration. It provides configuration explanations in the simplest forms possible and provides step-by-step guidance with illustrations and practical examples. What You'll Learn "Is in-depth coverage of FI-AA syllabus How to configure FI-AA accounting in SAP How to integrate FI-AA accounting with other SAP modules How to explain the functionalities of SAP FI-AA Knowledge gained from real-world practical examples and case studies Who This Book Is For The key target audience for this book includes SAP consultants, developers, accountants, support organizations and beginners. It is also a resourceful learning manual for universities and institutions whose curricula covers SAP-ERP Asset Accounting.

SAP is the world leader in Enterprise Resource Planning (ERP) software; of the software's modules, the FI (Finance) and CO (Controlling) are by far the most popular and are widely implemented. This book has no competition! It is the only book on the market on how to configure and implement SAP's FI and CO modules to maximize functionality and features hands-on, step-by-step instructions and real-world examples that provide immediate and practical solutions. Updated for SAP's ECC 6.0, the book covers FI enterprise structure, general ledger, substitutions and validations, automatic account assignments, accounts payable and receivable, asset accounting, accrual engine, closing entries, credit management, lockbox, CO enterprise structure, profitability analysis (CO-PA), and more.

This series covers "Step 2" understanding of the SAP FI/CO. Financial Accounting with SAP FI/CO is one of the most important business activity in any company, because it aims at achieving a company's long term planning by creating the back ground enterprise structure that all other SAP modules like SAP SD, SAP PP, SAP MM, SAP SCM, etc. And others are expected to link/integrate in perfectly to achieve a an effective ERP system. This book was written because of the gab in SAP knowledge of many students/work seekers/workers due to lack of access to SAP Software computers or inability for them to afford the high fees charged by SAP training partners. Limiting them from getting new SAP/ERP jobs in any industry private or public. Thus it is aimed at beginners to expert users of SAP. This book is part of a series that is aimed at gradually covering all areas of Financial Accounting in Maritme using SAP FI/CO modules. With this book you can learn and achieve skills on how to use SAP ERP software to perform various daily Corporate/business financial functions like in SAP FI/CO Modules- FI: Finance Accounting General Ledger, Finance Accounting Accounts Receivable and Payable, Finance Accounting Asset Accounting, Finance Accounting Bank Accounting, Finance Accounting Travel Management, Finance Accounting Fund Management, Finance Accounting Legal Consolidation. CO - Modules: Planning, Reporting and monitoring operations of businesses. Workers, students and Business individuals are now expected to have a good knowledge skills of this software to perform and manage various job duties using a computer application likt this. Limitation of the above skills is a negative setback to once managerial, numeric skill ability, employability and/or personal business success in life. This book would help you achieve this skills, and it is aimed at beginners to expert users of SAP. This series Financial Accounting in Maritme with SAP plus Certificate, aims at covering the below topics only: Company setup: Customization Steps 1. SAP ERP System Requirement 2. SAP ERP Management Console Start-up 3. SAP ERP Login. Tthis book offers the reader a certificate of completion after answering all questions in each chapter. This a Practical how to do book which guides you to become expert in End User, Implementation and Post Implementation Audit of SAP R/3 of FICO. The Functional Module of SAP R/3 FICO is the Backbone of all the other Modules. The FI and CO modules helps amplify functionality and features through application of customizing the system to meet accounting, financial, planning, and reporting needs in an organization. This book takes you through step by step guide on Implementation of SAP FICO module with Precise conceptual explanation and Guided Screenshots. Once the steps in implementation is finished it is necessary to ensure that all the activities are performed in accordance. As such the book provides in guided steps by step approach to verify the same which we call it as SAP FICO Audit Process. The post implementation or SAP FICO Audit Comprises of a widespread listing of important business process perils, along with commonly acknowledged information technology objectives and recommended regulators to meet the objectives.Finally, a set of step by step functions performed by End User exercise are provided for practice. The Book is Unique in the sense that it deals with all three types of training needed for a SAP FICO Professional without having a clear idea of Settings in FICO other Modules Learning is ineffective. The book provides Implementation guidance through Explanation of why each task is performed and the key tables in SAP associated with each step.What you will learn?1.The Book Initially takes you through Logistics Management which is the base of all Business Process and since almost everything comes under Logistics.2.Further It Gives You Clear Understanding of ERP and ALL the SAP functionalities available in simple layman's Language. 3.Provides you with a virtual firm's SAP R/3 FICO Step by Step Full Implementation Guide.4.Most of the Materials do not help you in implementation in a sequential method. This book carries you with a sequential step such as in a particular order.5.The Book also helps you to practice exercise at end of almost every sessions6.Most of the tutorials that exist in online do not explain the concepts.7.It guides you with End User Training in FICO. POST IMPLEMENTATION SAMPLE Control ObjectiveCompany codes employed in the system should be set to productiveControl DescriptionIn case of post go-live actions, there are some configurations that must be turned on to replicate that the SAP system is active for use and to protect the data that has been transferred to the production system.In a normal SAP recommends, the functioning company codes should be marked as productive, as soon as the implementation happens. This configuration specifies and endorses the active status of the company code and by default would limit the unsanctioned changes, comprising data deletion in the production server.RiskHere the risk is mistaken deletion of master & transactional data, which will unfavorably influence the system reliability.Test StepsHere we check the global company code configuration to confirm if the appropriate company codes are marked as Productive. For This Follow Steps1.1.1. We can see that Company code B100 is not Productive as such to make it productive follow the steps in 15.1.2.

Financial Accounting with SAP FI/CO is one of the most important business activity in any company, because it aims at achieving a company's long term planning by creating the back ground enterprise structure that all other SAP modules like SAP SD, SAP PP, SAP MM, SAP SCM, etc. And others are expected to link/integrate in perfectly to achieve a an effective ERP system.
