Presentation.

Investigation.

The key to a  
good and

manageable

investigation is

to choose a

topic of

interest, then

ask what is

called a

"testable

question."

Testable

# Where To Download

Science Fair  
Project Steps  
Discovery  
Education

questions are those that can be answered through hands-on investigation by the student. The key difference between a general interest science question and a testable question is that testable questions are

# Where To Download

always about  
changing one  
thing to see  
what the effect  
is on another  
thing.

The engineering design process is a series of steps that engineers follow to come up with a solution to a problem. Many times the solution involves designing a product (like a machine or

# Where To Download

computer code)  
that meets  
certain criteria  
and/or

accomplishes a  
certain task.

An important  
part of learning  
is doing!

# Where To Download

Science fairs  
and STEAM events  
offer students  
an opportunity  
to practice  
investigation  
and engineering  
design. But how  
are scientific  
projects  
different than  
engineering  
projects? Think  
of investigators

# Where To Download

as scientists  
and inventors as  
engineers.

Scientists use  
research and  
experiments to  
explore the  
world around us.
