The editors have carefully reviewed what articles faculty actually use in their classes, and focused this revision on the most popular material. This means that the eighth edition is ten articles shorter, which holds down the cost while keeping the most important material. Five new articles appear in the eighth edition. Now included in the reader:

relation of income distribution to race, sex, education and occupation. A companion booklet includes charts, graphs and explanations.

In 1959 Virginia, Sarah, a black student who is one of the first to attend a newly integrated school, forces Linda, a white integration opponent's daughter, to confront harsh truths when they work together on a school project.

**#1 NEW YORK TIMES BESTSELLER** • Brené Brown has taught us what it means to dare greatly, rise strong, and brave the wilderness. Now, based on new research conducted with leaders, change makers, and culture shifters, she's showing us how to put those ideas into practice so we can step up and lead. Look for Brené Brown's new podcast, Dare to Lead, as well as her ongoing podcast Unlocking Us! **NAMED ONE OF THE BEST BOOKS OF THE YEAR BY BLOOMBERG** Leadership is not about titles, status, and wielding power. A leader is anyone who takes responsibility for recognizing the potential in people and ideas, and has the courage to develop that potential. When we dare to lead, we don't pretend to have the right answers; we stay curious and ask the right questions. We don't see power as finite and hoard it; we know that power becomes infinite when we share it with others. We don't avoid difficult conversations and situations; we lean into vulnerability when it's necessary to do good work. But daring leadership in a culture defined by scarcity, fear, and uncertainty requires skill-building around traits that are deeply and uniquely human. The irony is that we're choosing not to invest in developing the hearts and minds of leaders at the exact same time as we're scrambling to figure out what we have to offer that machines and AI can't do better and faster. What can we do better? Empathy, connection, and courage, to start. Four-time #1 New York Times bestselling author Brené Brown has

spent the past two decades studying the emotions and experiences that give meaning to our lives, and the past seven years working with transformative leaders and teams spanning the globe. She found that leaders in organizations ranging from small entrepreneurial startups and family-owned businesses to nonprofits, civic organizations, and Fortune 50 companies all ask the same question: How do you cultivate braver, more daring leaders, and how do you embed the value of courage in your culture? In this new book, Brown uses research, stories, and examples to answer these questions in the no-BS style that millions of readers have come to expect and love. Brown writes, “One of the most important findings of my career is that daring leadership is a collection of four skill sets that are 100 percent teachable, observable, and measurable. It’s learning and unlearning that requires brave work, tough conversations, and showing up with your whole heart. Easy? No. Because choosing courage over comfort is not always our default. Worth it? Always. We want to be brave with our lives and our work. It’s why we’re here.” Whether you’ve read *Daring Greatly* and *Rising Strong* or you’re new to Brené Brown’s work, this book is for anyone who wants to step up and into brave leadership.

"This is our THIRD school improvement plan! Why aren't we seeing any results?" "We have all of this data, but we don't know what to do with it!" "What does this workshop have to do with the goals we set for our school? Many of today's school leaders have all the latest tools, techniques, and programs for school improvement. Unfortunately, some leaders fail to create real, sustainable results for their schools because they use one or two "flavor-of-the-month" strategies without connecting all the pieces together for real improvement. In *Align the Design: A Blueprint for School Improvement*, Nancy J. Mooney and Ann T. Mausbach emphasize the importance of coordinating essential school improvement processes to increase staff capacity, improve student achievement, and develop effective schools. The authors show

school leaders how to use "power tools" to \*Develop effective curriculum \*Make the most of their school's data \*Create successful school improvement plans \*Implement valuable professional development sessions and workshops \*Use efficient supervisory techniques \*Foster leadership for school improvement Each chapter includes personal reflections from the authors and lists of touchstone texts that have inspired their efforts. At a time when school leaders are trying to translate urgent calls for higher achievement into actions that work, *Align the Design* provides expert guidance and practical tools that will help educators work more purposefully together to create better schools for their students.

*The Myth of Individualism* offers a concise introduction to sociology and sociological thinking. Drawing upon personal stories, historical events and sociological research, Callero shows how powerful social forces shape individual lives in subtle but compelling ways.

John Berger's *Ways of Seeing* changed the way people think about painting and art criticism. This watershed work shows, through word and image, how what we see is always influenced by a whole host of assumptions concerning that nature of beauty, truth, civilization, form, taste, class and gender. Exploring the layers of meaning within oil paintings, photographs and graphic art, Berger argues that when we see, we are not just looking - we are reading the language of images.
