for Person-Centred Care Includes eBook on VitalSource

This text recognises the issues and challenges faced by senior students making the transition to nursing practice. This book offers motivating discussion and insight to facilitate the shift from university to the workplace. This edition is restructured into three sections: From Student to Graduate; Skills for Dealing with the World of Work; and Organisational Environments. All chapters have been fully revised and updated with consistent pedagogical features. Themes addressed in the text include: learning to work in teams; understanding organisational structure; stress management for nurses; communication with patients and families; and professional development strategies. This book brings together a team of academics and clinical practitioners of the highest calibre. The text stimulates students' and nurses' interest in theory and concepts while providing strategies that can be tested and applied in nursing practice.

Chang and Daly 's highly respected text assists students when preparing for their first nursing role by addressing key issues such as: Team work Organisational culture Stress management Communication skills Professional development strategies Self-care. NEW chapters: - Evidence-based practice/knowledge translation: a practical guide; - Establishing and maintaining a professional identity: portfolios and career progression; - Transition into practice: the regulatory framework for nursing Stronger focus on organisational culture, clinical reasoning, conflict resolution, skills and competencies, and requirements of professional portfolios Updated Recommended Readings and revised Case Study Reflective Questions All chapters have been updated to reflect current practice.

Kozier and Erb 's Fundamentals of Nursing prepares students for practice in a range of diverse clinical settings and help them understand what it means to be a competent professional nurse in the twenty-first century. This third Australian edition has once again undergone a rigorous review and writing process. Contemporary changes in the regulation of nursing are reflected in the chapters and the third edition continues to focus on the three core philosophies: Person-centred care, critical thinking and clinical reasoning and cultural safety. Students will develop the knowledge, critical thinking and clinical reasoning skills to deliver care for their patients in ways that signify respect, acceptance, empathy, connectedness, cultural sensitivity and genuine concern.

Applied Paramedic Law, Ethics and Professionalism brings together the legal and ethical principles relevant to paramedic profession in the Australian and New Zealand contexts. Written by Ruth Townsend and Morgan Luck, the text explores and explains the practical application of these principles through the use of case studies and paramedic-specific scenarios. An indispensable guide for student paramedics, and those already in the profession, the text helps to develop an awareness of the legal and ethical principles that guide professional practice. By engaging with the text, readers develop an understanding of the implications of their decisions and actions in a range of situations, as well as an understanding of their professional responsibilities. Additional case studies and short answer questions to support further learning Additional resources on Evolve eBook on VitalSource Student and instructor resources Multiple choice questions Case studies Instructor resources PowerPoints Short answer questions Essay questions Thoroughly revised content to reflect updated national standards for education and practice, the national Code of Conduct and guidelines set by the Paramedic Board of Australia New chapters on privacy, employment law and research An eBook included in all print purchases

Perfect for: • Bachelor of Midwifery students • Postgraduate Midwifery students • Combined Nursing degree students • Combined Nursing degree students Midwifery: Preparation for Practice 3e is the definitive midwifery text for Australian and New Zealand midwifery students. The third edition continues to reinforce the established principles of midwifery philosophy and practice—that of working in partnership with women and midwifery autonomy in practice and from this perspective, presents the midwife as a primary healthcare practitioner. It carefully examines the very different maternity care systems in Australia and New Zealand, exploring both autonomous and collaborative practice and importantly documents the recent reforms in Australian midwifery practice. Midwifery: Preparation for Practice 3e places women and their babies safely at the centre of midwifery practice and will guide, inform and inspire midwifery students, recent graduates and experienced midwives alike. • Key contributors from Australia and New Zealand • Critical Thinking Exercises and Research Activities • Midwifery Practice Scenarios • Reflective Thinking Exercises and Case Studies • Instructor and Student resources on Evolve, including Test Bank questions, answers to Review Questions and PowerPoint presentations. • New chapter on Models of Health • Increased content on cultural considerations, human rights, sustainability, mental health, obesity in pregnancy, communication in complex situations, intervention, complications in pregnancy and birth and assisted reproduction • Midwifery Practice Scenarios throughout.

Joints and Connective Tissues - General Practice: The Integrative Approach Series. In order to diagnose and manage the patient presenting with musculoskeletal symptoms, it is important to distinguish whether the pathology is arising primarily in the so-called hard tissues (such as bone) or the soft tissues (such as cartilage, disc, synovium, capsule, muscle, tendon, tendon sheath). It is also important to distinguish between the two most common causes of musculoskeletal symptoms, namely inflammatory and degenerative.

Fundamentals of Nursing, 2e highlights the core themes of nursing, including nurse, person, health and environment, covering the fundamental concepts, skills and standards of practice. Research and evidence-based practice issues are highlighted to help introductory nursing students prepare for delivering care for culturally diverse populations across a continuum of settings. With up-to-date coverage of the Registered Nurse Standards of Practice (2016) and key pedagogical features such as our unique 'Spotlight on Critical Thinking' questions, this text challenges students to assess their own nursing practice and apply the concepts to real-life clinical settings. Fundamentals of Nursing presents in-depth material in a clear, concise manner using language that is easy to read and has good coverage of topics such as rural and remote nursing and Aboriginal and Torres Strait Islander health. This text is complemented by the bestselling Tollefson, Clinical Psychomotor Skills: Assessment Tools for Nursing, which covers skills and procedures. A value pack of these two texts is available. Premium online teaching and learning tools are available on the MindTap platform.

"Law for Nurses and Midwives, 7th edition gives undergraduate and postgraduate nursing and midwifery students a concise introduction to the law as it pertains health care provision in Australia. As students will already appreciate, nursing and midwifery practice involves making decisions with and for others. This often requires evaluation of best interests and obligations and an assessment of what will best protect or enhance a patient or client's wellbeing. Understanding the application of current legal statutes - particularly those relating to negligence and consent - as they apply to professional practice is therefore essential for all nurses and midwives. Law for Nurses and Midwives, 7th edition provides students with information and knowledge necessary to make well informed and considered decisions - both
